Hello
World

Objective 18 | **Select job responsibilities and functions for the circulator.**

✔ **NOTE:** The circulator stays outside the sterile field and has a number of patient assistance and surgical facilitating responsibilities. The circulator's preoperative, intraoperative, and postoperative responsibilities are summarized below.

1. **Preoperative (before surgery)**
   - Plans, implements, and evaluates preoperative care
   - Assists with opening unsterile supplies before surgery and as needed during surgery
   - Identifies patient, and performs preoperative assessment
   - Provides preoperative education to patient
   - Transports and positions patient on surgery table
   - Prepares the operative site by performing the scrub prep, and possibly the shave prep if needed

     ✔ **NOTE:** Usually the shave prep is done before the patient enters the surgical suite.
   - Assists the anesthesia provider when needed
   - Checks and connects electrical equipment to power sources, and connects suction to vacuum; handles unattended ends of equipment
2. **Intraoperative (during surgery)**
   - Is available to sterile team members and anticipates their needs
   - Obtains and prepares all medications needed during the procedure and obtains blood products for transfusion as directed
   - Completes and maintains accurate operative records, including notation of any irregularities and incidents
   - Monitors patient vital signs in local or regional anesthetic cases
   - Observes for any breaks in aseptic technique
   - Is ultimately responsible for the identification and care of specimens received from person in the scrub role
3. **Postoperative (after surgery)**
   - Tapes postoperative dressing
   - May accompany patient to Postanesthesia Recovery Room to give a nursing report of patient's progress, condition, and patient equipment requirements

This poem is well known because it is inscribed on the pedestal of the statue of Liberty in New York Harbor. What other details in the poem tell you that the colossus being described is, in fact, the Statue of Liberty?

He was found by the Bureau of Statistics to be
One against whom there was no official complaint,
And all the reports on his conduct agree
That, in the modern sense of an old fashioned word, he was a saint
For in everything he did he served the Greater Community
Except for the War till the day he retired
He worked in a factory and never got fired,
But satisfied his employers, Fudge Motors Inc.
Yet he wasn't a scab or odd in his views
For his Union reports that he paid his dues,
(Our report on his Union shows it was sound)
And our Social Psychology workers found
That he was popular with his mates and liked a drink
The Press are convinced that he bought a paper every day
And that his reactions to advertisements were normal in every way
Policies taken out in his name prove that he was fully insured
And his Health-card shews he was once in hospital but left it cured
Both Producers Research and High-Grade Living declare
He was fully sensible to the advantages of the Instalment Plan
And had everything necessary to the Modern Man.
A phonograph, a radio, a car and a fridgidaire.
Our researchers into Public Opinion are content
That he held the proper opinions for the time of year
When there was peace, he was for peace; when there was war, he went.
He was married and added five children to the population,

How Can I Test My Fax Machine?

I just hooked up a new fax machine, and I'd like to test it, just to make sure it works. How can I do that?

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both.

To test the send functionality of your fax machine, send a one page fax to 1-855 330-1239 (a toll-free number in the United States). When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero. This site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

WARRANTY PROCEDURE

Whenever warranty parts are required:

1 - Be prepared to furnish the following information:

a - Complete model and serial numbers.

b - Proof of required periodic maintenance, installation date and location.

c - An accurate description of the problem.

2 - Call a local Lennox dealer or contractor.

3 - If the retailing dealer is unable to provide warranty parts, check the yellow pages for another Lennox dealer in the area. Refer to the Lennox Industries Inc. website at www.lennoxdealers.com to locate a dealer in the area, or contact:

Lennox Industries, Inc.
P.O. Box 799900
Dallas TX 75379-9900
1-800-9LENNOX (1-800-953-6669)

WARRANTY LIMITATIONS

1 - Lennox will not pay labor involved in diagnostic costs, or in removing, repairing, servicing, or replacing parts. Such costs may be covered by a separate warranty provided by the installing contractor.

2 - The warranty is void if the covered equipment is removed from the original installation site.

3 - The warranty does not cover damage or defect resulting from:

a - Flood, wind fire, lightning, misuse, or vandalism; and operation in a corrosive atmosphere or otherwise in connect with excessive materials (including chlorine, fluorine salt, recycled waste water, urine, fertilizers, or other damaging substances or chemicals).

b - Accident or neglect or unreasonable use or operation of the equipment, including operation of electrical equipment at voltages other than the range specified on the unit nameplate (includes damages caused by brownouts).

c - Modification, change or alteration of the equipment, except as directed in writing by Lennox.

d - Operation with system components (indoor unit, outdoor unit, and refrigerant control devices) which do not match or meet the specifications recommended by Lennox.

e - Operation of furnace with continuous return air temperatures of less than 60°F (or 55°F when furnace is operated with night setback mode).

f - Operation of a furnace that is field-installed downstream from a cooling coil.

g - Operation of a system containing R-410A refrigerant without the required filter drier. All systems containing R-410A refrigerant must include a filter drier. The filter drier must be replaced when compressor replacement is necessary.

h - Use of contaminated or alternate refrigerant.

The installation of replacement parts under the terms of this warranty does not extend the original warranty period.

Lennox makes no express warranties other than the warranty specified above. All implied warranties, including the implied warranties of merchantability and fitness for a particular purpose are excluded to the extent legally permissible. Should such exclusion or limitation of the warranty be unenforceable, such implied warranties are in any event limited to a period of one (1) year. Liability for loss, dental and consequential damages is excluded. Some states do not allow limitations on the duration of an implied warranty or the exclusion or limitation of incidental or consequential damages, so the limitations or exclusions may not apply to the owner.

Lennox will not pay electricity or fuel costs, or increases in electricity or fuel costs for any reason whatsoever, including additional or unusual use of supplemental electric heat. This warranty does not cover lodging expenses.

Lennox shall not be liable for any default or delay in performance under this warranty caused by any contingency beyond its control.

This warranty gives the owner specific legal rights, and the owner may also have other rights which vary from state to state.

NOTE TO CUSTOMER

Baking Overview

The top section of the MBK Utilities tool palette is designed as a one stop area for baking either a normal map, an illumination map, an ambient occlusion map, or any combination of the above. It's designed to give you results quickly without having to dig around in the mode UI to make sure all the necessary settings are in place. Inevitably it may not be ideal for all baking scenarios, for example material texture baking should still be done in the Shader Tree, but for scene related baking it's ideal.

Normal Map

Enter the name of the normal map that you want to bake.

Format

Select the image format in which you want the normal map to be saved.

Illumination Map

Test fax from Circuit ID

This is not a test fax, just because it showed up means nothing, the fax machine probably didn't work, but sent this to its friends to faked it for it, because it wants to trick you into thinking it is, watch your back around the fax machines, they are watching, and they do not know fear.

Thanksgiving Day Newsletter

Message

Thursday November 26, 2015

Dear y Beloved,

We bless the Lord for His mercies from January until now. Psa. 124:1-3 says, "If it had not been the Lord who was on our side, they would have swallowed us quick: His Presence gives us victory, joy and reason to continue. His Presence is the guarantee for a bright, fulfilled and successful future. I yearn to your level, the presence of God to Moses in Ex. 33.14 "The LORD replied, My Presence will go with you, and I will give you rest." His presence is supreme cause, glory, shall envelope and follow you to the end of the year and beyond in Jesus' mighty name!

Here in United States, we have a tradition of celebrating a national holiday of Thanksgiving the 3rd weekend in November. It is easy to forget that the true meaning has been lost. Regardless I would say let the observance continue. Paul says whether in pretense or in truth Christ is preached, and I discern in Dogo ue yea- and will rejoice (Phil. 1:18). So please, let's all join not only in the tradition, but teach and observe it with meaning as it can have its full impact in our lives, family, church, and community.

What Is Thanksgiving?

The English Dictionary defines it as the act of giving thanks, grateful acknowledgment of favors, especially to God. The Hallelujah was very right when he said "Praise Jesus for a higher plan than I can begin to grasp. When I gave thanks – my thoughts still circle around myself to some extent. But to praise my soul ascends to self-forgetting adoration, awe and praising only the majesty and power of God, His grace and redemption."

Why should I praise and thank God?

The Bible reveals to us a lot of reasons why we need to praise and thank God. Let us consider the Psalm 103:1-22, "who forgiveth all thine iniquities; who healeth all thy diseases; etc. In addition to the various reasons outlined by the Psalmist, allow me to consider these additional points.

- Your pregnancy was not aborted and presently you are still alive and in the right frame of mind.
- You went through infancy successfully without deformity. Those with defects still have courage and grace to overcome and live well.
- No matter your level, you are still better than others. Some people are praying to just attain your present status.
- Remember various disappointments you've gone through and God sustained you. You are still sane and came out a better person.
- The exhilarating Lover, health, family lose and change of status that you have, renewed.
- God gave you victories once faithful warfare (in phase of gold"
- Various blessings that you don't know value and recognize but they are always there. They would have made you to be less human if they had been absent.

Believe the list is countless just as each of the song writer, "Count your blessings, name them one by one and it will surprise you what the Lord has done." Remember Paul and Silas in the dungeon in Acts 16. They raised praise and thanksgiving with their prayers. Despite their prevalent situation they sang and praised God. When the presence of God came down, their chains fell off and all the prison doors opened in time own accord. Every chain and fetter shall break off and it shall be your season of open doors as you engage in the instrumentality of thanksgiving.– **Pastor James Ende Chairman RCCGNA**

Reasons for Thanks

This Thanksgiving I'm thankful That there aren't tie on as many Congressmen as I'd half as many doctors That grass doesn't grow through snow, necessitating winter mowing as well as shoveling That there are only twenty four hours available each day for TV programming That church servants aren't less civil That teenagers still mately will have children who will become teenagers That I'm not a turkey That houses still cost more than cars. That the space available for messages on T-shirts and bumpers is limited That liberated women whose husbands take them for granted don't all scream at the same time. That snow covers the unraked leaves. That hugs and kisses don't add weight or cause cancer That record players and radios and TV sets and washers and mixers and lights can be turned off That no one can turn off the moon and stars

- From Christianity Today (Nov 17, 1978)

I CAN'T SIGN OFF ON THIS PLAN. IT'S TOO EXPENSIVE.
YOU HEARD ME SAY THAT DOING NOTHING WILL END UP COSTING YOU TWICE AS MUCH. RIGHT?
YES.
AND YOU UNDERSTAND THAT THIS IS YOUR ONLY ALTERNATIVE?
I HAVE ANOTHER MEETING. MAYBE DILBERT CAN EXPLAIN IT TO YOU.
UM... OKAY I'LL TRY.
MY BOSS DOESN'T UNDERSTAND THAT COSTS SHOULD BE COMPARED TO ALTERNATIVES.
OH.
TEAMWORK MEANS YOU CAN'T PICK THE SIDE THAT'S RIGHT.

fax tones. If your HP device "hears" fax tones, it will take the call and receive the fax automatically.

* It is recommended that you connect your answering machine to the port labeled 2-EXT on the back of your HP device. Connect the phone cord supplied with your HP device from the port labeled 1-LINE on the back of your HP device to the telephone wall jack.

* Note: This setting is for use with answering machines only. If you have a voice mail service provided by the phone company, use the Back button to go back and deselect "Answering Machine" on the respective "Fax Setup" dialog. This will ensure your HP device has the correct settings for your setup.

* If any of the information above is not correct, click Back to move back to any of the questions you would like to answer differently. You can also run the Fax Setup Wizard at any time after completing the software installation

Hello!

This is a sample test file which is being sent to you as per your request via the Interpage FreeFax(sm) Service!

This service is intended to provide a preliminary evaluation as to the quality and timeliness of Interpage's subscription fax service(s).

If you review the cover sheet which was transmitted with this fax, you will note the first letter of the name you had indicated in the TO: field of the FreeFax request page. This letter serves to correlate the fax request which you had sent with this trial fax transmission result.

This file is a sample MS Word file; many other file types are supported.

If you have any questions regarding Interpage's OutFax(sm) Service, including the FaxUnlimited(sm) service with no-per or per-minute charges, please feel free to contact us at:

Phone: +1 (510) 315-2750 9AM to 5.30 PM M-F Pacific Time
E-Mail: intl-support@interpage.net
Web: http://www.interpage.net

Thank you for your interest!

Notes: 1. Due to the malicious use of the FreeFax service, Interpage will no longer transmit personalized text messages, or any the above fixed sample message will be transmitted. You may establish a trial account for evaluation purposes by filling out the form located at http://www.interpage.net/toll-fax-trial.html, entering any billing information, and clearly indicating a valid e-mail address and contact telephone number. Please call (510) 315-2750 for additional details.

2. This fax is not a solicitation nor is it an offer. It was sent by a visitor to Interpage's web site who entered your destination number as a recipient of this test fax. A single user action may not receive more than two tests in a given week; however, if you find that someone is sending you faxes in a continuous and abusive manner, please call us at (510) 315-2750 and we will block your fax number from the FreeFax service.

Weird News - Police: Suspect arrested after flirting with cop

Associated Press | Posted: Tuesday, January 10, 2012 2:59 pm

SAN FRANCISCO | San Francisco police say a man wanted on suspicion of rape was arrested after approaching a uniformed female officer on patrol and flirting with her.

The unidentified 26-year-old man was taken into custody over the weekend on a no-bail warrant for rape issued in Hayward.

Capt. Paul Chignell told the San Francisco Chronicle the arrest came after the man tried to strike up a conversation with the female officer.

The officer was inside a parked police cruiser.

Chignell said the suspect asked the officer if she was married. The officer said she wasn't available, but asked for the man's name.

A subsequent record check turned up the warrant, and the suspect was arrested.

Quick Jokes

Two Aerials meet on a roof - fell in love - got married. The ceremony was rubbish but the Reception was Brilliant

Man goes to the doctor with a strawberry growing out of his head
Doctor says "I'll give you some cream to put on it.

"A man says to the Doc, I can't stop singing the Green Green Grass of Home." "That sounds like Tom Jones syndrome
Is it common?" "It's Not Unusual"

A guy walks into the psychiatrist wearing only cling film for shorts
The shrink says, "Well I can clearly see you're a nut."

"So I rang up my local swimming baths. I said "Is that the local swimming baths?" He said "It depends where you're calling from."

Two cannibals eating a clown. One says to the other "Does this taste funny to you?"

Police arrested two lads yesterday, one was drinking battery acid, the other was eating fireworks.
They charged one and let the other one off.

I went to buy some camouflage curtains the other day but I couldn't find any

How many men does it take to open a beer? None. It should be opened by the time she brings it.

Why is a Laundromat a really bad place to pick up a woman? Because a woman who can't even afford a washing machine will probably never be able to support you

Why do women have smaller feet than men? It's one of those "evolutionary things" that allows them to stand closer to the kitchen sink.

How do you know when a woman is about to say something smart?
When she starts her sentence with "A man once told me..."

How do you fit a woman's watch? You don't. There is a clock on the oven

What's worse than a Chernobyl Pig? A woman that won't do what she's told

I married Miss Right. I just didn't know her first name was Always.

I haven't spoken to my wife for 18 months. I don't like to interrupt her

What do you call a woman who has lost 95% of her intelligence? Divorced

Scientists have discovered a food that diminishes a woman's sex drive by 90%. It's called a Wedding Cake.

Son: "Is it true that in some parts of Africa a man doesn't know his wife until he marries her." Dad: "That happens in every country, son."

Women will never be equal to men until they can walk down the street with a bald head and a beer gut and still think they are beautiful.

Dear Pete,

Permit me to introduce you to the facility of facsimile transmission.

In facsimile a photocell is caused to perform a raster scan over the subject copy. The variations of print density on the document cause the photocell to generate an analogue electrical video signal. This signal is used to modulate a carrier, which is transmitted as a remote destination over a radio or cable communications link.

At the remote terminal, demodulation reconstructs the video signal, which is used to modulate the density of prints produced by a printing device. This device is scanning in a manner exactly synchronised with that of the transmitting terminal. As a result, a facsimile copy of the subject document is produced.

Probably you have uses for this facility in your organisation.

Yours sincerely,

Phil.

Soil Sampling Pastures

John Lory and Steve Cromley
Division of Plant Sciences and Commercial Agriculture Program

Collecting a representative soil sample is an important step in developing a nutrient plan for your farm. The goals of your soil sampling plan should be to

- Identify manageable sized fields with similar characteristics
- Accurately and cost-effectively determine the nutrient status of those fields.

Highly variable soil fertility levels across a field can make it difficult to collect a good soil sample. With planning, representative soil samples can be obtained from your pasture. Careful, comprehensive soil sampling pays dividends in smarter management decisions and efficient use of fertilizer nutrients.

How should I divide my pastures?

When creating a soil-sampling plan for fields and farms, the objective is to divide fields into areas that you expect to have similar characteristics or that you are likely to manage differently than other parts of the pasture. Typically sampling areas should not exceed 20 acres and can be much smaller in management-intensive grazing systems, frequently the best strategy is to sample each paddock separately.

Pastures have many sources of variability

- Animal activities and habits are a huge source of variation in pastures.
  - Areas around winter feeders, shade trees and water sources have higher soil test levels.
  - Manure piles and urine spots have elevated nutrients.
- Natural features such as soil type and topography are important sources in variability particularly in low-testing and unfertilized fields.
- Human activities can overwhelm natural sources of variability in a field
  - Nutrient hot spots are often found near old feeding areas and homesteads
  - Differences in fertilizer patterns can create differences in soil test levels. An indicator of different fertilizer histories can be old or existing fence lines.

Figure 1 Obtaining a quality soil sample.

There is often a band of elevated pH within 150 feet of a gravel road caused by drifting dust from the crushed limestone road surface.

When sampling a paddock or field, avoid sampling in areas that are unrepresentative of the field (Figure 1) Avoid taking cores near shade trees, water sources and winter feeding areas. If you want to know soil test levels in these areas, sample them separately

How to collect a soil sample

Your objective is to collect 15 to 20 cores from the area to be sampled (Figure 1) You need to collect more cores per field in a pasture than in a row-crop field because there typically is much more variation in a pasture from manure piles and urine spots.

The best approach is to travel across the entire area to be sampled in a zigzag pattern, randomly selecting spots to take a core (Figure 1) Sampling depth (4 to 7 inches for most objectives in pastures (Figure 2) Do not take too shallow a sample as this will overestimate the soil fertility level in your pasture.

Important Class Action Notice

A settlement worth at least $75 million has been reached with Trans Union and Acxiom Corporation in a class action lawsuit. The U.S. District Court for the Northern District of Illinois has preliminarily approved a Class that includes all consumers who had an open credit account or an open line of credit from a credit grantor (including, for instance, auto loans, credit cards, mortgages and student loans) in the United States anytime from January 1, 1987 to May 28, 2008. If the settlement gets final approval, it will affect Class members' rights. You may be a member of the Class. If you are a Class member, you may sign up for credit monitoring and other benefits, and/or a possible cash payment. The Court will have a hearing on September 10, 2008 to decide whether to approve the settlement, so that benefits can be issued. Class members may object to the settlement and ask to speak at the hearing. Objections must be mailed by August 22, 2008. Go to www.ListClassAction.com or call 1-866-416-2470 for more information.

No Carb Pizza Crust

Servings	Prep Time	Cook Time
1 8-10 Inch Crust	5 minutes	25 minutes

Ingredients

- 10 oz Canned Chicken Here's A Good Option
- 1 oz grated parmesan
- 1 large Egg

Instructions

1. Thoroughly drain the canned chicken, getting as much moisture out as possible
2. Spread chicken on a baking sheet lined with a silicon mat. Bake at 350 for 10 minutes to dry out the chicken.
3. Once chicken is done baking for 10 minutes remove and place in a mixing bowl. Increase heat of oven to 500 degrees.
4. Add cheese and egg to the bowl with chicken and mix
5. Pour mixture onto baking sheet lined with a silicon mat and spread thin. Placing parchment paper on top and using a rolling pin makes this easier
6. Optional: With a spatula press the edges of the crust in to form a ridge for the crust. This is beneficial is you're using toppings that may slide off(i.e. eggs)
7. Bake the crust for 8-10 minutes at 500 degrees
8. Remove crust from oven. Add desired toppings and bake for another 5-10 minutes at 500 degrees. Toppings will dictate final cook time
9. Remove from oven and allow to cool for a few minutes. Your life is now changed. Enjoy!

Epley Maneuver

Self-Treatment of Benign Paroxysmal Positional Vertigo

Benign Paroxysmal Positioning Vertigo is caused by loose inner ear crystals in the inner ear that migrate while sleeping to the back-bottom inner ear balance canal, the so called "posterior semi-circular canal". The maneuver demonstrated below is the way to reposition the loose crystals so that the symptoms caused by the loose crystals go away. You may have a floating, swaying sense while walking or sitting for a few days after this procedure. Benign Paroxysmal Positioning Vertigo is one of many balance disorders that we diagnose and treat at the Tampa Bay Hearing & Balance Center. Contact us today to request an appointment.

Cauliflower with Bacon and Mushrooms

– serves 4 –
Adapted from *Vegetable Love* by Barbara Kafka

Ingredients

1/4 pound bacon, sliced into 1/4-inch strips
2 tablespoons butter
1/2 head cauliflower, cored and florets chopped
5 ounces mushrooms, sliced
3 shallots, chopped
1/2 cup parsley, chopped
kosher salt and pepper

Procedure

1 Add the bacon to a skillet set over medium-low heat. Cook until bacon is crisp, about 10 minutes or so. Remove the bacon and drain on some paper towels. Leave the glorious grease in the skillet.

2. Add the butter to skillet, and let it melt. Then crank the heat to high and add the cauliflower and mushrooms. Cook for 5 minutes. Then add the shallots and cook for another 2 minutes.

3 Return the bacon strips to the pan along with the parsley, reduce the heat to medium-low and cook for 2 minutes, stirring occasionally. Pour in 1/4 cup of water and scrap the bottom of the pan to dislodge any browned bits. Cook until the water has evaporated. Season with salt and pepper to taste.

Cauliflower Gratin

Homemade Liquid Hand Soap for Sensitive Skin

You will need:

- A bar of soap
- A cheese grater
- A medium-large microwave safe bowl
- A funnel
- Water (preferably RO, distilled or filtered water)
- Glycerin
- A decorative pump bottle to put your finished hand soap in

1) First, grate the bar of soap into little shreds

2) Mix with 3 cups water
And two teaspoons glycerin (You can find glycerin at CVS pharmacy in the facial soap section.)

3) Microwave for 3 minutes (You will have a bubbly soup.)

4) Let it cool and use the funnel to pour it into your bottle of choice

I tested the main fax machine and the mail room fax machine
They are able to send internally, externally, and to long distance numbers.

Can you try sending a fax to this number from your fax machines?
1-888-877-1655

Once you send it, it will show up on this website
http://faxtoy.net
(Mine is circled in yellow and it takes about 5 minutes for it to show up)

Let me know if it works for you
If it does not send the fax, your fax machines should give an error within 30 seconds.

Thanks,

SCHEDULED MAINTENANCE

Follow Schedule 1 if the vehicle is operated in USA where motor fuels with low sulphur content are available and none of the following conditions may apply.
If any do apply follow Schedule 2 (Canadian residents follow Schedule 2 in all conditions)

- Repeated short-distance driving
- Driving in dusty sandy areas
- Driving with extended use of brakes
- Driving in areas where salt or other corrosive materials are used
- Driving on rough or muddy roads
- Extended periods of idling or low-speed operation
- Driving for long periods in cold temperatures or extremely humid climates

Chart symbols

- **I** Inspect and repair, clean, adjust, or replace if necessary
  (Oil-impregnated air filter cannot be cleaned using the air blow method.)
- **R** Replace
- **L** Lubricate

Chart remarks.

After the prescribed period, continue to follow the described maintenance at the recommended intervals.
Refer below for a description of items marked* in the maintenance chart.
*1 According to state, provincial and federal regulations, failure to perform maintenance on these items will not void your emissions warranties. However, Mazda recommends that all maintenance services be performed at the recommended time or mileage. Failure to perform to ensure long-term reliability
*2. If the vehicle is operated in cold climates 1 below -18 degrees C (0 degrees F) replace the timing belt at 96,000 km (60,000 miles).
*3 Use only engine oils with API SL or ILSAC GF-3 service grade (or higher)
Recommended viscosity index is 5W-30 or 10W-30 (depending on climatic conditions).

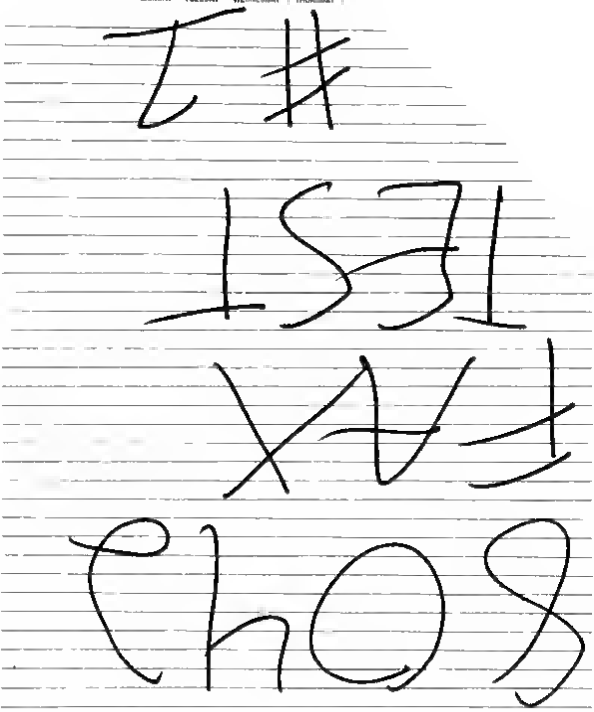
JANUARY FEBRUARY MARCH APRIL MAY JUNE JULY AUG.

MONDAY TUESDAY WEDNESDAY THURSDAY



MUST INCLUDE A COPY OF THE GUARANTORS ID

Dear Applicant:

Your application and interest is appreciated. In order to complete your application, you will be required to submit a personal guarantee from a responsible person as discussed in our rental policy. This guarantee will place the burden of paying rent or damages should you not be able to cover the costs. Please return the original in person or by mail to complete your application.

PERSONAL GUARANTEE OF RENT AND PERFORMANCE OF LEASE CONDITIONS

The undersigned (guarantor) understands that Landlord would not approve the Resident or rent the apartment without this personal guarantee. In consideration for Landlord accepting _____ as a resident (hereinafter known as Resident), the undersigned guarantees that:

Upon failure of Resident to perform all conditions of the Rental Agreement and / or attachments, which include but are not limited to: payment of rent, payment of legal fees, damage or cleanup of any common area, damage and / or cleaning fees in excess of Security Deposit, the undersigned will perform the same.

The rental agreement is a joint agreement and we understand that the Management of _____ is not in a position to determine individual responsibility. **This guarantee is for the full amount of rent, damages, legal fees, etc.** (This can include rent through the end of the lease if RESIDENTS fail to perform all conditions of the lease.) All guarantors of the apartment have the same responsibility for the full payment, not a pro-rated share. (Any excess payments will be refunded). Guarantor also agrees that should another guarantor settle a claim with **Xenon Investment Corp.**, that guarantor shall have the right to pursue all legal remedies in an attempt to collect damages from other guarantor of this apartment. If any guarantor does not have a guarantor, it is the responsibility of the RESIDENT to so notify guarantor and Xenon Investment Corp.

In addition, in the event no action is brought to require performance of the above-stated conditions, the prevailing party may be entitled to recover reasonable attorney's fees and court costs. Any action which may be required will be held in the court of jurisdiction in the West Los Angeles area. Xenon Investment Corp. is not obligated to send any deficiency notices while the resident(s) is in possession of the apartment. If the resident is on a fixed term lease and renews their lease, this guarantee will remain in effect through the subsequent lease.

I have read the above terms and conditions and hereby agree to be bound by them. Furthermore, I agree to allow the agent for Xenon Investment Corp. to complete a credit check and income verification. I also agree that this guarantee can only be cancelled with the written concurrence of Xenon Investment Corp. "As required by law, you are hereby notified that a negative credit report reflecting on your credit report may be submitted to a credit agency if you fail to fulfill the terms of your credit obligation."

EGR 120: Statistics Homework

(From Problems 9.2 and 9.3)

A random sample of bolts was taken from the manufacturing line. The table below shows the measured length of each bolt. Sort the data into an entry table consisting of classes that span 0.010 in (2.4700 to 2.4799, 2.4800 to 2.4899, etc.). Prepare a histogram (which indicates the frequency and relative frequency). For this set of data, determine the following: maximum, minimum, range, mode, mean, median, mean absolute deviation, standard deviation, and variance.

The manufacturing line makes 50,000 bolts each day. A "quality" or "good" bolt is defined as one that is 2.500 ± 0.010 inches long. Assuming the bolt lengths are normally distributed, how many quality or good bolts are produced each day?

Table: Length of sampled bolts (in inches)

/www.merckmanuals.com/pp/us/cus/cns_bl_dorlands_split.jsp?pg=/ppdocs/us/common/dorlands/dorland/eight/000107530.htm)

The **testicle** (from Latin: *testiculus*, diminutive of *testis*, meaning "witness" of virility,[1] plural *testes*) is the male gonad in animals. Like the ovaries to which they are homologous, testes are components of both the reproductive system and the endocrine system. The primary functions of the testes are to produce sperm (spermatogenesis) and to produce androgens, primarily testosterone.

Both functions of the testicle are influenced by gonadotropic hormones produced by the anterior pituitary. Luteinizing hormone (LH) results in testosterone release. The presence of both testosterone and follicle-stimulating hormone (FSH) is needed to support spermatogenesis. It has also been shown in animal studies that if testes are exposed to either too high or too low levels of estrogens (such as estradiol, E2) spermatogenesis can be disrupted to such an extent that the animals become infertile.[2]

Hi :)

It sounds as though it all fell off the tongue of Mike Lange, but it's really the punch line to a joke uttered by the Pittsburgh Penguins' first coach, Red Sullivan.

Sullivan hated the proposed black and white colors and Penguin? nickname for Pittsburgh's NHL expansion team.

According to Pittsburgh freelance artist Bob Grenier, the famous Sullivan quote went as follows: "The day after we play a bad game, the sportswriters will say 'They skated like a bunch of ducks.'"

The name was named February 10, 1967 after more than 26,000 entries from a newspaper contest were filtered.

The Penguins would play home games at the Civic Arena, or "The Igloo," and the nickname seemed like a natural choice to Carol McGregor, the wife of Penguins' owner Son. Jack McGregor.

Grenier had a distain for the new team name, too. He favored the adoption of the Hornets nickname used by the Pittsburgh's AHL team.

"The Penguins? No, really what will the team be called?" quizzed Grenier upon first hearing the name. "You can't call a hockey team 'the Penguins.' That's ridiculous.

Grenier LEFT made those remarks while he was being interviewed for the job to create the first official team logo. Not exactly a great first impression.

Grenier, then 34 years old, was not afraid to admit his partiality to the Hornets because they had a logo he knew and loved.

No kidding -- Grenier had also designed the Hornets logo.

After studying at the Art Institute of Pittsburgh, Duquesne University and the University of Pittsburgh, Grenier spent a stint in North Korea with the U.S. Army before returning to Pittsburgh to begin his freelance artist career.

Grenier's Other Logos

Pirates baseball logo designed by Grenier in 1962

jerseys. Before then, it was used on the official packs and team stationery.

• The first jerseys used a simple diagonal "PITTSBURGH" stitching scheme that was favored by Coach Kelly from former member of the New York Rangers, whose jerseys still feature drop-shadow diagonal lettering.

— Grenier designed the Universal Pittsburgh script. Pitt logo first used on their football helmets in 1972. Grenier also drew the "Freedy panic" emblem used by the city's baseball team from 1968 to 1986.

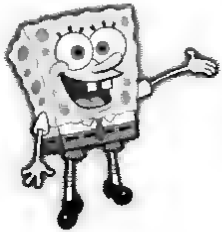
Skills Needed to Achieve Grade-level Academic Standards	**Present Levels of Performance**	**Needs/Concerns**	**Annual Goals/Objectives**	**Accommodations/ Modifications**
What are the content standards for the student's grade and impacted subject area(s)?	Where is the student performing in relation to the grade-level standards?	Does the Present Level of Performance list the specific skills/knowledge the student needs in each class/subject area?	What would the CSE expect the student to be able to do by the end of the year?	What are the key things that can be done in each class/subject that would allow the student successful access to the day-to-day classroom activities?
	Does the Present Level of Performance indicate specifically what skill/knowledge the student has or is ready to learn (grade-level academic standards)?	What other needs – beyond academic skills (deficit areas such as organizational skills – impact involvement and progress in the general curriculum?	Do the goals reflect the specific skill/knowledge needed in order for the student to be able to do it by the end of the year?	What accommodations will this student need in order to minimize the effects of his/her disability?
	What is the gap between the student's current level of academic achievement and the expectations for grade level performance?	What will help the student gain access to the general education curriculum standards?	What will make the biggest difference for the student in the coming year?	What strategies, accommodations and/or interventions have been successful in helping the student make progress in the general curriculum? Which were unsuccessful?
	Is the student able to complete the work at the same level of other students or in the same way?	Does the student need to be taught specific strategies or in a way that is not available to students in the class?	What will help the student gain access to the general education curriculum/ standards?	What will help the student gain access to the general education curriculum standards?



Testing Your HP Fax Machine with the HP Fax Test Service

Support details

Introduction

This document will guide you in testing your HP Fax machine using the HP Fax Test service.

Print this document for easy reference by clicking the **Printable** version link in the upper right corner of this page.

Test your fax machine

To test the connection of your fax products, follow the instructions below:

NOTE: Be sure that your phone number is not blocked by your connection company prior to connection to send and receive a fax. Incoming fax before dialing the toll free number will interrupt the Caller ID blocking service in most areas. Other phone company services can prevent your faxes requiring a fax including voice mail, call blocking, or call blocking services.

NOTE: Telephone numbers using a fax store, it is good practice to set the generated Product option to Every Easy Select telephone, a test fax. This way, even if the card fax fails, an error code will be generated that will guide you to future troubleshooting. This option is available to Product phones or Product products, number the product User's Guide for specific steps.

1. Send a one page black and white test fax to **1-800-bpfaxme** (1-800-473-2963).
2. When your fax is received by the HP Test Fax Service, we will generate a return fax to you within five Product confirming that we received your fax. The **verified** that you can read and receive a fax with your fax machine.

If you do not receive a return fax within 5-7 minutes, there may be a problem with the setup of your fax machine. Contact the user manual and review with the product for proper setup and configuration.

NOTE: The most common cause problem is that the fax number set in the Fax number or the Header does not match the number of the option fax connected to the fax. Also, make sure you do not require more than the 10-digit telephone number of the fax machine including the area code.

For more information on assistance, click/contact **HP** at the top of this page.

Act of Contrition

O my God, I am heartily sorry for having offended you, and I detest all my sins, because of Your just punishments, but most of all because they offend You, my God, who are all-good and deserving of all my love. I firmly resolve, with the help of Your grace, to sin no more and to avoid the near occasion of sin.

DIALYSIS OF FBS TO REMOVE AMINO ACIDS

Reagents	Materials
1xPBS (8 liters) sterile ddH_2O FBS	Dialysis Tubing 3500 MWCO (Fisher Scientific #21-152-9 is 5cm wide) 4-liter beaker containing 4-l ters of ddH_2O (with a stir bar) stirbar & stirplate Dialysis clips (7.5cm) Funnel (sterile)

General Information on dialysis:

- Handle tubing only with powder-free gloves to avoid getting skin o ls on membrane
- Dry/packaged dialysis tubings generally contain some heavy metals and glycerin Repeated soaking in water removes the glycerin boiling the tubing will also remove the glycerin
- Recommended buffer volume is 10 times the volume of the sample in the tubing
- Although diffusion rate is somewhat reduced in the cold, almost all protein dialysis is conducted at 4°C to enhance protein stability
- If not used immediately tubing should be stored covered at 4°C in water containing 0 1% sodium azide Once wetted, the membranes should not be allowed to dry out.

Procedure

1) Calculate the volume of amino-acid free FBS needed. Fisher tubing #21-152-9 contains 6.7ml/cm tubing Add an extra 5-10cm to allow for the dialysis clips
2) Place tubing in 4-liter beaker containing 4-l ters of ddH_2O with a stir bar Make a foil lid and autoclave tubing in beaker
3) Wearing gloves. Remove tubing with plastic forceps (careful not to puncture membrane!)
4) Clip the bottom of the dialysis tubing with a weighed dialysis clip Take care to make sure there are no folds in the membrane
5) Fill tubing about 3/4 full with sterile ddH_2O Gently squeeze tubing from the top to inspect for leaks in the tubing or at the bottom of the clip
6) Pour out ddH_2O and use a funnel to add FBS Clip top of tubing with non-weighted dialysis clip Check for leakage at both ends by applying a small amount of pressure to the sample area.
7) Pour out ddH_2O from the beaker and add 4-liters sterile 1XPBS
8) Place dialysis tube in the beaker and replace foil lid. Make sure that the bag is completely immersed.
9) Stir tubing gently on a stir plate in the cold room for ~4-6 hours.
10) Pour off old 1xPBS buffer and add remaining 4-liters of 1XPBS and gently stir overnight.
11) Remove the dialysis bag from the buffer and rinse the exterior with distilled water *If the bag is extremely taut as a result of buffer infiltration, do not remove either dialysis clip instead pin one end of the tubing onto a beaker large enough to hold the entire sample then puncture the tubing near the lower knot with a needle and allow the sample to drain directly into the beaker*
12) Filter sterilize dialyzed FBS using a Millipore 22μm filter unit

QUEEN PALM CARE GUIDE

Easy as 1-2-3

Queen Palms are some of the most beautiful and most popular palms grown here in the desert. If given proper care, they will always be as green and full as when purchased.

1. WATERING

By far, <u>the</u> 1 <u>rule</u> of water is the most important ingredient for the well being of Queen Palms here in the desert. Queen Palms are tropical type palms, native to much wetter areas of the world. They can handle the extremes of our desert temperatures, but do need more water than nature provides. For most palms that don't appear healthy, think of properly applied water combined with nutrient deficiencies is usually the cause. A good rule of thumb is that it's practically impossible to over water a Queen Palm, especially during the intense heat of summer months!

When applying water, quicker is better! As a Queen Palm matures, it's roots spread wider, but not much deeper than 18 to 24 inches. So make sure that as your tree grows to apply the water under every tree. A good rule of thumb for this is to water an area at least 5 to 6 times as wide as the trunk diameter.

How often to water depends on many variables including current temperatures, soil conditions and recent rain fall (or lack of). To keep a good, happy level of moisture for Queen Palms, basic watering guidelines are as follows:

Season / Temp Range	Watering (per week)
Summer - Above 100°	4 or more times per week
Fall / 85° to 100°	2 to 3 times per week
Winter - Below 85°	1 to 2 times per week
Spring / 85° to 100°	2 to 3 times per week

NOTE: "Use as guideline. Adjustments are made to create Evenly moist soil conditions and prevent rain fall (or lack of). To keep a good, happy level of moisture for Queen Palms, basic watering guidelines are as follows:

2. FERTILIZING

Keeping Queen palms healthy has never been this easy!

<u>Don't fall</u> for expensive injections or spikes that many <u>use to sell</u>. We've taken the guesswork out of feeding Queen Palms. Our **Super Palm Juice®** has all of the major & micro nutrients to keep palms green & healthy in an easy to use liquid format that reaches the roots FAST!

Super Palm Juice is great for all varieties of palms and is an absolute must for Queen Palms!

3. TRIMMING

Only remove fronds that hang downward (below horizontal). So <u>why</u> cut <u>fronds</u> about 2 "5" from trunk, using a cut that is parallel to the trunk. During Summer months it's common to get some brown tips. It's ok to just trim off the brown and leave the green portion of the frond. Trimming is usually only necessary once or twice a year.

Adobe Acrobat PDF Files

Adobe® Portable Document Format (PDF) is a universal file format that preserves all of the fonts, formatting, colours and graphics of any source document, regardless of the application and platform used to create it.

Adobe PDF is an ideal format for electronic document distribution as it overcomes the problems commonly encountered with electronic file sharing

- ***Anyone, anywhere*** can open a PDF file. All you need is the free Adobe Acrobat Reader. Recipients of other file formats sometimes can't open files because they don't have the applications used to create the documents
- PDF files ***always print correctly*** on any printing device.
- PDF files always display ***exactly*** as created, regardless of fonts, software, and operating systems. Fonts, and graphics are not lost due to platform, software and version incompatibilities.
- The free Acrobat Reader is easy to download and can be freely distributed by anyone
- Compact PDF files are smaller than their source files and download a page at a time for fast display on the Web

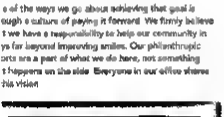
A Culture of Giving Forward

Why We Invest in Our Community

After opening 15 years as a stay-at-home mom, I had some reservations about returning to the workforce. I hadn't used the skills I learned be getting a marketing degree during college in many ars and I wanted to make sure I found the right fit. It's y to market something you believe in and that's why so grateful I found a home at Hagerstown Smiles ntal Care. Our goal here isn't just great dentistry. about making people feel cared for when they step ough our doors, and it's about making those outside doors know they are cared for as well

e of the ways we go about achieving that goal is ough a culture of paying it forward. We firmly believe t we have a responsibility to help our community in ys far beyond improving smiles. Our philanthropic orts are a part of what we do here, not something t happens on the side. Everyone in our office shares this vision



many wonderful charities and causes are all around We pride ourselves in recognizing some of our mmunity needs and the passions our team members l patients hold dear in their hearts. To name of few of ourreach efforts, we have supported the Alzheimer's sociation by participating in the Walk to End

Alzheimer's, we donated a Kate Spade "Smile-Themed" purse to the Cumberland Valley Breast Cancer Awareness auction, and as many of you know, in June we hosted our 6th Annual Dentistry From The Heart serving 175 patients and donating $62,000 in dental services.

Dr. Peter Candalaga and friends Dominican Republic

Several of our patients commit their time and energy to mission trips, and we enjoy sending toothbrushes and other supplies all around the world. In 2017 we donated $11,000 for a new suction machine to a Dominican Republic dental clinic. Now to Hagerstown Smiles is our campaign initiative for the United Way of Washington County. Their comprehensive approach to improving the health, education, and financial needs of Washington County is remarkable. Because of their passion, we couldn't resist joining forces. We are also looking forward to sponsoring Muddy Mamas for the first time this month in support of Girls Inc. and Girls on the Run, two more organizations that care about the well-being of local children

To see the multiple programs we support go to our website, hagerstownsmiles.com/pay-it-forward. Perhaps we can inspire you to be good stewards and givers. There are countless, amazing causes in your backyard!

Of course giving forward isn't just about charity. It also means saying thanks to the patients that make Hagerstown Smiles so special. We recently hosted our annual Patient Appreciation Night at a Hagerstown Suns game. We provided 300 tickets and meal vouchers and even threw a few prizes into the stands. The evening ended with a fabulous fireworks display. It was a ton of fun, and it's a small way to acknowledge the loyalty and goodwill of our patients

Our doctors and staff being so invested in the community adds so much joy to coming to work. The team spirit here amazes me and I don't take for granted what a special practice I'm a part of. Office culture matters, and our culture is one of always seeking new ways to give forward to our patients and our community. I wouldn't want it any other way

How Can I Test My Fax Machine?

I just hooked up a new fax machine, and I d like to test it, just to make sure it works How can I do that?

Presumably you want to test your fax machine by sending a fax from it and receiving a fax with it. Here s how to do both.

To test the send fonctionality of your fax machine, send a one-page fax to 1-855-330-1239 (a toll-free number in the United States) When it's finished transmitting, point your web browser to Fax.Tiny — it's a fax web site that displays whatever is faxed to that number Within a minute, your fax should appear on the site Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero; this site lets you send faxes for free to anywhere in the United States and Canada Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax

Addresses the ongoing monitoring of transactions and existing accounts for suspicious transactions

Another Closely Related Rule:

OFAC:

The Office of Foreign Assets Control (OFAC) is part of the U.S. Treasury Dept. It administers and enforces economic and trade sanctions against targeted foreign countries, terrorist, international narcotics traffickers, and those involved in the proliferation of weapons of mass destruction, basically anyone who threatens the security or economy of the United States

Under this regulation, financial institutions are required to:

- Block (or "freeze") accounts and other property of specified countries entities and individuals
- Prohibit or reject unlicensed trade and financial transactions with specified countries, entities and individuals
- Report these actions to OFAC (within 10 days of occurrence)
- Have policies and procedures in place and to monitor for infractions

OFAC maintains and regularly updates a list of individuals and entities that are restricted from trading in the United States. This list is known as the "Alphabetical Listing". It contains a list of all blocked persons, specially designated nationals (SDN's), specially designated terrorists (SDT's), and specially designated narcotics traffickers (SDNT's). It's mandated that new accounts are checked against this list, as well as existing accounts when the list is updated

Although OFAC requirements are different from the Bank Secrecy Act, they also share common internal security goals. For this reason, many depository institutions find comparisons with OFAC compliance as closely related to BSA compliance

Penalties for OFAC non-compliance:

Severe civil and criminal fines and penalties can be assessed to

- the credit union
- individuals, including employees and the Board

(Example - Failure to block and report an illicit transfer)

"Preparen el Camino del Señor, enderecen sus senderos".
– Marcos 1:3

LA TARDANZA DE DIOS

En tiempos de grandes dificultades las burlones se mofan diciendo "¿Dónde está Dios" ¿Por qué no viene tu Dios a salvarte ahora?" Y nosotros, gente de fe respondemos casi igual como lo hizo Pedro en la segunda lectura de hoy la "tardanza" de la segunda venida del Señor no es ningún tipo de castigo ni un fallo en la promesa divina sino un signo de amor de la paciencia de Dios Dios está dando a todo el mundo la oportunidad de buscar el arrepentimiento. Dios no hace la vida más difícil. Más bien una vez mas descubrirse la carga para los justos exiliados que regresan a su país después del cautiverio en Babilonia. Fue Dios quien personalmente los guió preparándoles una "carretera recta" para ellos a través del desierto. Nos unimos a nuestros antepasados en la fe que esperaban valientes al Salvador. Dios debería de obrar y que finalmente se aterrorizaba de que el Señor tarde o temprano a tu lado

TRADICIONES DE NUESTRA FE

El dia 9 de diciembre conmemoramos a San Juan Diego de Mexico. Hace un par de años casi milagrosamente fue canonizado por su nativo en las apariciones Guadalupanas. Hubo controversia alrededor de su canonización porque había quienes insistían que Juan Diego nunca existió. Después de leves que el Vaticano decidió que no sólo existió, sino que fue y es santo, digno de ser modelo e intercesor. Las investigaciones encontraron que el nombre indígena de Juan Diego era Cuauhtlatoazin, es decir Aguila que habla" Tal vez por este nombre tan significativo fue que los franciscanos lo bautizaron Juan Diego. El nombre Juan recuerda al apóstol quien escribió el evangelio mas grandioso y cuyo símbolo es el águila Diego viene del apóstol Santiago y san Diego quien evangelizo a los españoles durante el siglo 1 De cualquier manera Juan Diego Cuauhtlatoazin se convirtió en el Aguila que habla y anuncia el evangelio mistico según Guadalupe es Aguila que habla de amor paz, consuelo y desafío en una tierra conquistada aprisionada y llena de promesa.

Motorcycle Skills Test Course Layout

1- When signaled, ride to the right of the first cone, to the left of the second and so on. Weave past all five cones without touching or skipping a cone or putting a foot down. Turn left and ride to the side of the course. Make a smooth, non-skidding stop with your front tire inside the box. When stopped, your front tire must not touch the painted lines. Remain stopped.

2- When signaled, make a right turn between the boundary lines. Do not touch either line. Diagonally cross to the opposite side of the course and make a left u-turn inside the painted box at the far end of the course. Do not touch the solid line (600cc or more) or the dashed line (less than 600cc) or put a foot down. Stop with your front tire inside the box.

3- When signaled, accelerate straight up the path, stabilize your speed between 12-18 mph by the time you reach the first line. Maintain a steady speed. When your front tire crosses the second line, stop as fast as you safely can. You will not lose points if you skid.

4- When signaled, accelerate straight up the path, stabilize your speed between 12-18 mph by the time you reach the first line. Maintain a steady speed. When your front tire passes the second line, swerve to the right/left. Avoid the obstacle line and stay to the inside of the sideline. Do not touch either line.

Orange Chiffon Cake

6 large eggs plus one additional egg white (30 grams)

2 1/4 cups (225 grams) sifted cake flour

1 1/2 cups (300 grams) superfine white sugar (caster sugar) (*See Note)

1 tablespoon baking powder

1/2 teaspoon salt

2 tablespoons grated orange zest (outer orange skin)

1/2 cup (120 ml) vegetable, corn, canola, or safflower oil

3/4 cup (180 ml) freshly squeezed orange juice (2 - 3 large oranges)

1 teaspoon pure vanilla extract

1/2 teaspoon cream of tartar (optional)

Note: To make superfine sugar, process 1 1/2 cups (300 grams) of granulated white sugar in your food processor for about 30-60 seconds or until finely ground.

Orange Chiffon Cake: Separate the eggs while they are still cold. Place the egg yolks in one bowl and the whites (along with the extra egg white) in another. Cover with plastic wrap and bring to room temperature (about 30 minutes).
Preheat the oven to 325 degrees F (170 degrees C) and have ready a 10 inch (25 cm) two piece ungreased tube pan.

In the bowl of your electric mixer, fitted with the paddle attachment, (or use a hand mixer) place the flour, sugar (minus 1/4 cup (50 grams)), baking powder, salt, and orange zest. Beat until combined. Make a well in the center of the flour mixture and add the egg yolks, oil, orange juice, and vanilla extract. Beat until smooth (about one minute). Scrape down the sides of the bowl as needed.

In a separate bowl, with the whisk attachment, beat the egg whites until foamy. Add the cream of tartar and continue to beat until soft peaks form. Gradually beat in the remaining 1/4 cup (50 grams) of sugar and beat until stiff peaks form. With a large rubber spatula or wire whisk, gently fold the egg whites (in three additions) into the batter just until blended (being careful not to deflate the batter).

Pour the batter into the ungreased tube pan and bake for about 55 to 60 minutes, or until a wooden skewer inserted into the center of the cake comes out clean. (When lightly pressed, the cake will spring back). Immediately upon removing the cake from the oven invert (turn upside down) the pan and place on a bottle or flat surface so it is suspended over the counter. Let the cake cool completely before removing from pan (about 1 - 1 1/2 hours).

To remove the cake from the pan, run a long metal spatula around the inside of the tube pan and center core. Invert onto a greased wire rack. Dust the top with confectioners sugar (powdered or icing). Serve with softly whipped cream (or ice cream) and fresh fruit.

Store in an airtight container for a few days at room temperature or for about a week in the refrigerator. This cake can also be frozen for a couple of months.

Hello

Testing

Setting up an X-Lite client on Asterisk

1) Adding a client entry to Asterisk's SIP configuration

✔ edit the SIP configuration file */etc/asterisk/sip.conf*

```
# sudo vi /etc/asterisk/sip.conf
```

✔ enter an entry for each X-Lite client, for example

```
[12345]          ; X-Lite client 12345
type=friend
secret=blah
auth=md5
nat=yes          ; we assume clients are behind NAT
host=dynamic     ; and have dynamic IP addresses
relaxdtmf=no     ; it seems we need to make them
canreinvite=no   ; always go through Asterisk
qualify=1000
dtmfmode=inband
callerid= "Fred Flintstone" <12345>
disallow=all
allow=gsm        ; add whatever other codecs we fancy
context=theflintstones ; use a context that exists ;-)
```

✔ save the changes

2) Adding extensions for X-Lite clients

✔ edit the Extensions configuration file */etc/asterisk/extensions.conf*

```
# sudo vi /etc/asterisk/extensions.conf
```

✔ enter one catch-all extension, for example

```
[theflintstones]    ; Our context for X-Lite clients
;
; Catch all five digit numbers, no leading zeroes
exten => _[12345-789][0-9][0-9][0-9],1,NoOp("call for ${EXTEN}")
exten => _[12345678][0-9][0-9][0-9],2,Dial(SIP/${EXTEN},60,tr)
exten => _[12345-789][0-9][0-9][0-9],3,Congestion
```

✔ alternatively, enter one specific extension for each client

✔ save the changes

3) Reload the new configuration

✔ on the Asterisk console, reload the configuration files

```
asterisk*CLI> reload
```

that's it—we're done

1. **TAX EXEMPTS.** The [illegible] Government is not liable for the payment of taxes under Chapter 12 of the Texas Revised Civil Statutes. Texas Sales and Use Tax Exemption Certificate will be furnished upon request. Tax exemption does not apply to materials for use in the performance of contracts which are performed within the limits of municipalities that have a sales tax.

2. **APPLICABILITY.** These terms and conditions are applicable to all [illegible] contracts and purchases awarding jurisdiction.

3. **STATUTES.** Attention is given to applicable laws and regulations of the State of Texas and the United States of America, and the validity of any contract or purchase order issued pursuant thereto shall be governed by the laws of the State of Texas.

4. **GOVERNING LAW.** The parties agree that the laws of the State of Texas shall govern the rights of the parties and the validity of any contract or purchase order issued pursuant thereto. Any action or suit against the State of Texas shall be brought in a court of competent jurisdiction in Travis County, Texas.

5. **APPROPRIATION FUNDS.** Funds for the payment of any contract or purchase order shall be from appropriations duly made by the Legislature of the State of Texas or from funds derived from any grant or gift for such purpose, and no liability on the part of the State for any payment or duty arising out of any such contract or purchase order shall be binding on the State unless sufficient funds are available to the State for the payment thereof.

6. **VENDOR RESPONSIBILITY.** The Vendor shall be responsible for any [illegible] damage to the [illegible] which may be caused by the Vendor or any of his employees or authorized representatives during the performance of the contract.

7. **FREIGHT TERMS.** All prices are to be quoted F.O.B. destination unless otherwise specified. Prices shall be quoted as indicated by the bidder. Delivery shall be made during normal working hours only, unless prior approval is obtained from the Purchasing Agent. Any delivery made on Saturday, Sunday or a State holiday must be approved by the Purchasing Agent. The Vendor shall be responsible for filing any necessary claims for damaged or lost shipments, but the Purchasing Agent will assist in every way possible. Any damaged merchandise shall be replaced by the Vendor at no cost to the State.

8. **DELIVERY ON SCHEDULE.** All deliveries must be made as stated in the quotation. The time of delivery quoted may be used as a factor in determining the successful bidder. In the event that the bidder cannot make delivery as specified, he shall notify the Purchasing Agent immediately by telephone, giving the reason for the delay and the date he can make delivery. If the delivery date offered is unsatisfactory, the Purchasing Agent reserves the right to cancel the order without any further obligation to the Vendor. Vendor will be responsible for any damages which may be incurred by the State of Texas as a result of the Vendor's failure to deliver materials or services in accordance with the terms and conditions of the purchase order.

9. **INSPECTION.** All goods are subject to inspection at delivery. The Purchasing Agent will have the right to reject or hold, at the Vendor's risk and expense, any goods that do not meet specifications or are otherwise unsatisfactory. Any rejected goods shall be replaced by the Vendor promptly, without expense to the State, and the Vendor shall not be entitled to any additional payment because of any delay in the delivery of replacement items. All goods are subject to final inspection and acceptance at destination. Payment for goods delivered will not constitute acceptance of such goods.

10. **CHANGES.** No additions or changes in the terms and conditions of purchase orders resulting from this invitation will be binding upon the State unless expressed in writing by the Purchasing Agent. No change in the terms and conditions of purchase orders resulting from this invitation will be made or agreed to by any employee of the State other than the Purchasing Agent, and no oral statement of any person shall modify or otherwise affect the terms, conditions or specifications stated in the resulting purchase order. All change orders must be in writing and signed by the Purchasing Agent before any change called for shall be made. The Vendor shall not rely upon any change until he receives a written change order signed by the Purchasing Agent.

11. **WARRANTY.** Equipment offered for use must be brand new, latest model. The equipment shall be warranted to be free from defects in material and workmanship for a period of not less than 90 days from the date of acceptance by the State, unless a longer warranty is specified in the bid. The Vendor shall be responsible for all warranty service and repair during the warranty period. The warranty period shall commence on the date the equipment is delivered to the user agency. In the event of any conflict between any warranty or guarantee of the manufacturer and the warranty provisions contained in the bid, the provisions which afford the most protection to the State shall govern.

12. **SUPPLIER'S WARRANTY RESPONSIBILITY.** The successful Vendor shall be responsible for and shall warrant that all articles furnished or work performed in the performance of the Vendor's contract shall comply with the requirements of the bid and perform to the warranty specifications. If any of the articles furnished under this contract do not perform to the specifications, the Vendor shall correct them or provide a suitable substitute without cost to the State. Articles that are repaired or replaced under the terms of the warranty shall be subject to the same warranty in favor of the State.

13. **DEFECTIVE WORKMANSHIP.** Defective workmanship or work which does not comply with the requirements of the specifications shall be rejected. The Vendor shall remove and replace such defective work or material within a reasonable time specified by the Purchasing Agent, and all costs incurred in making such replacements shall be borne by the Vendor.

14. **PAYMENT TERMS.** Unless otherwise specified in the bid, payment for purchases within the limits of the municipality will be made within 30 days of receipt of invoice or of items delivered, whichever occurs later. Payment for purchases outside the limits of the municipality will be made within 30 days of receipt of invoice or of items delivered, whichever occurs later. All payments will be made in the manner designated by the Vendor unless the Purchasing Agent determines that such payment is not in the best interest of the State. Payment will not be considered made until the Purchasing Agent authorizes the issuance of the warrant in payment of the invoice.

15. **MARKING REQUIREMENTS.** All cartons shall contain the following information: Purchase Order Number, Item Number, Item Description, Quantity, Unit Price, Total Price, and Vendor's Name. Packing slips shall be enclosed in a waterproof envelope and attached to the outside of the carton.

16. **PURCHASE ORDER NUMBERS.** The Purchase Order number must be submitted on all invoices, packages, packing slips, bills of lading, and correspondence relating to the order. Failure to do so may delay payment and may result in the return of the shipment at the Vendor's risk and expense.

17. **SHIPMENT UNDER RESERVATION PROHIBITED.** Vendor is not authorized to ship any goods under reservation and no bill of lading will be accepted for such shipment.

18. **INDEMNIFICATION.** Vendor shall indemnify and hold harmless the State of Texas and its officers, agents and employees from any and all claims, actions, suits, demonstrations, adjudications in equity and costs of every nature and kind whatsoever, including but not limited to court costs and attorney's fees, and all damages of any kind, brought or recovered against the State of Texas or its officers, agents or employees by any person or persons by reason of any act or omission of the Vendor or any of its agents, servants or employees in the execution of or performance under any contract which may result from the bid, and from any and all claims, actions, suits, demonstrations, adjudications in equity and costs of every nature and kind whatsoever by reason of any act or omission of the Vendor or any of its agents, servants or employees while in the execution of or performance under any contract which may result from the bid, whether such claims, actions, suits, demonstrations, adjudications in equity and costs are brought or recovered in the name of the State of Texas or the name of the Vendor or any of its agents, servants or employees. The indemnity provided for in this paragraph shall not apply to any liability resulting from any negligence of the State, its officers, agents or employees, in connection with any design or specification prepared by the State, its officers, agents or employees, provided such negligence was the proximate cause of the injury. It is understood that the Vendor will not be liable for any claims, actions, suits, demonstrations, adjudications in equity and costs of every nature and kind whatsoever arising out of any conduct or omission of the State, its officers, agents or employees in connection with any design or specification prepared by the State, its officers, agents or employees. The Vendor shall promptly advise the State in writing of any claim or demand against the State or the Vendor known to the Vendor related to or arising out of the Vendor's activities under any contract which may result from the bid and shall see to the investigation and defense of such claim or demand at the Vendor's cost. The State shall have the right, at its option and at its own expense, to participate in the defense of any such claim or demand. Neither the Vendor nor the State shall have the right to settle any such claim or demand unless both parties agree to the settlement. In the event that a settlement or compromise is reached, the Vendor shall pay the amount of the settlement or compromise.

19. **EQUAL EMPLOYMENT OPPORTUNITY.** No contract shall be awarded by the Executive Director of the Texas Employment Commission unless the bidder has complied with Executive Order 11246, as amended by Executive Order 11375, and as supplemented in the Department of Labor regulations (41 C.F.R. Part 60). A contract shall not be awarded to any bidder who is engaged in unlawful employment practices. For the purposes of this provision, unlawful employment practices shall mean discrimination against any employee or applicant for employment because of race, color, religion, sex or national origin.

Adobe Acrobat PDF Files

Adobe® Portable Document Format (PDF) is a universal file format that preserves all of the fonts formatting, colors and graphics of any source document, regardless of the application and platform used to create it.

Adobe PDF is an ideal format for electronic document distribution as it overcomes the problems commonly encountered with electronic file sharing.

- ***Anyone, anywhere*** can open a PDF file All you need is the free Adobe Acrobat Reader Recipients of other file formats sometimes can t open files because they don't have the applications used to create the documents.
- PDF files ***always print correctly*** on any printing device
- PDF files always display ***exactly*** as created, regardless of fonts software and operating systems Fonts and graphics are not lost due to platform software and version incompatibilities
- The free Acrobat Reader is easy to download and can be freely distributed by anyone
- Compact PDF files are smaller than their source files and download a page at a time for fast display on the Web.

WSW21 (TAD setting 9)

Selector No	Function	Setting and Specifications
1 ↓ 7	Not used.	
8	Erasure of message stored in the memory after the message transfer	0: Yes 1: No

- **Selector 8 Erasure of message**

  Setting the selector to "0" will erase the message recorded in the memory after the document retrieval feature transfers the message.

WSW22 (ECM setting)

Selector No	Function	Setting and Specifications
1	ECM* in sending	0: ON 1: OFF
2	ECM* in receiving	0: ON 1: OFF
3	Call Waiting Caller ID	0: ON 1: OFF
4	Not used.	
5 ↓ 6	Acceptable TCF bit error rate (%) (Only at 4800 bps)	0: 0% 1: 8% 0: 8% 1: 4% 0: 0% 1: 2% 0: 0% 1: 1%

*ECM: Error correction mode

NOTE Selector 3 is applicable to the American version only, but not applicable to those models equipped with high-speed modem.

NOTE Selectors 5 through 6 are applicable to the Asian version only.

- **Selector 3: Call Waiting Caller ID**

  Setting this selector to "0" allows the user to decide whether or not to interrupt the current call when a new call comes in. If Call Waiting Caller ID service is available in the area and the user subscribes to it, he/she can see information about his/her incoming call.

- **Selectors 5 through 6 Acceptable TCF bit error rate (%)**

  Setting two or more selectors to "1" produces addition of percent assigned to each selector. If you set selectors 7 and 8 to "1," the acceptable TCF bit error rate will be 3%.

Subject: Chartered Accountant professional services

Dear Owner of DM Roofing

My name is Svatoslav Feshchenko I am a Chartered Accountant and would be delighted to have you as my client As a full service accounting and tax practice I offer a range of professional services suited to small and medium sized businesses, including

- Accounting (financial statement preparation (NTR), bookkeeping)
- Tax compliance (personal and corporate return preparation, HST returns payroll assistance)
- Tax advisory (tax minimization strategies, new business incorporation, corporate reorganizations, owner-manager remuneration planning and much much more)
- Tax dispute resolution (CRA audits reassessments, objections and appeals unfiled returns (last 12 years), tax amnesty (voluntary disclosure) and more)
- Business acquisitions (asset vs shares analysis of tax implications, tax risk assessment)

My primary goal is to ensure you are always paying the least amount of tax while being in full compliance with tax law

I would like to extend my invitation to you for a no cost, no obligation consultation to discuss your particular circumstances and offer ways I can help you For more information on the services I offer please visit my webs te at www.feshchenko.com or call me at 613-912 8061

I sincerely appreciate the time you took in reading this letter Please feel free to contact me with any questions you may have or if you wish to book an appointment.

Sincerely

Svatoslav Feshchenko CPA CA

The NEW USPS Personalized Stamped Envelope Program
The economical, convenient way to send it with style!

Whether you send just a couple of letters from home, or a fleet of cars from your business, the NEW Personalized Stamped Envelope program from USPS makes it quick, easy and inexpensive. With the new Personalized Stamped Envelope, you select your address and postage and we print your envelopes. You can order about 1 set to 2,400 sets, even for foreign mailers, allowing you to deliver your information in your own personal way. All this at just pennies more than you would pay for a plain envelope.

With four different fonts to choose from, plus color, seal and envelope styles, you're sure to find one to suit your style. Including window envelopes, you can design every one right to your taste. Choose from Postal Stamped Envelopes or Stamp Card Envelopes. Order by mail or phone. To receive an order kit, call the new information hotline or fill in the order form and return it to us.

STAMPS Now is the perfect program for businesses of all sizes.

STAMPS allows us the most convenient way for your business to send out your mail, with STAMPS we pay no more than retail. Every STAMPS item we order is customized to the specific preferences of the customer.

You can choose the envelope you need to make all of your mailings. Select the printed common information and stamp design to meet your marketing needs. We offer all stamps that are currently on sale from First Class to Priority Mail, plus Express Mail. Order by check or credit card. You can also include a personal letter to accompany your mail pieces.

Placing an order is easy. With the option to fax, email, phone or mail your order, simply choose the one that is most convenient for you. We process all orders as fast as we receive them, so whatever method you select, your order will be keyed and begin processing right away. If you choose not to order on an as needed basis, you can leverage the power of automation and have stamps shipped on a predetermined schedule.

For your convenience, we offer a variety of payment options. Pay by ACH, Credit Card or Business Check. If you have multiple locations, you can arrange for billing to your corporate office and ship orders to multiple addresses. You can also set up individual accounts for each shipping address. STAMPS Now is a national organization, so no matter where you are, we can help you.

For more information, please contact us at stampsnow info@usps.gov

MERCHANDISE EXCHANGE FORM

Merchandise may be exchanged for a limited time. Exchange your order as soon as possible to ensure that replacement stock is available. Exchanges should be requested within 30 days of receipt of your order.

Inspect your order immediately to ensure that you have received the correct items and that your order is complete.

- Exchanges: We always strive to deliver stamps of the highest quality. If you receive a damaged or flawed item, it may be sent back as an exchange. Please complete the Merchandise Exchange form located on the reverse side within 30 days of receipt.
- To help serve you, and to expedite your request, please send us a copy of your packing slip.
- Enter the reason for exchange. Reason codes are offered on the lower right hand corner of the packing slip.
- If you are missing any item(s) or need additional information please call Customer Service for instructions at 1-800-STAMPS-24 (1-800-782-6724). Or e-mail us at stampsnow@usps.gov.

Thank you for your order!

FRAUDS

The NAME you think is yours is actually Crown property via Crown copyright as that NAME appears in the Crown's book of Registry.

In Canada, the Crown claims copyright "*... where any work is, or has been, prepared or published by or under the direction or control of Her Majesty or any government department ...*" as per Copyright Act R.S., 1985, c. C-42, s. 12; 1993, c. 44, s. 60

Use of the Crown owned NAME/ person without a licence from the Crown opens any offender to **"fraudulent use"** and **"infringement of copyright"** of Crown property. Fraud is a criminal offence as per Criminal Code R.S., 1985, c. C-46, s. 380. Infringement of Copyright is an offence with liabilities as per Copyright Act R.S., 1985, c. C-42, s. 27.

NOTICE COSTCO EXECUTIVE MEMBER

SUBJECT: ELIGIBILITY FOR AVERAGE SAVINGS OF $515.16[1]

Dear Harry S. Young,

Are you overpaying for your auto insurance year after year? Other Costco members found they were paying more than necessary and you could be too. There's one sure way to find out: make a fast, no-obligation phone call.

Based on a decade ago, Costco formed a relationship with Ameriprise Auto & Home Insurance to offer savings to Costco members. In fact, you will receive an exclusive discount simply for being a Costco member. Other Costco members have purchased more than 400,000 policies from Ameriprise Auto & Home Insurance since the program began.

Make a quick call-free call to 1-888-404-5365 and you could save as much as $515.16 a year.[1]

You're already pre-selected, so no need to wait in queues. There's no obligation. One of you're like many other Costco members, this savings could be substantial.

Here's what Costco members reported saving in the first year alone when they switched to Ameriprise Auto & Home Insurance.[2]

- $513.78 less than Allstate
- $542.35 less than Farmers
- $447.21 less than GEICO
- $487.13 less than State Farm

You could pay less – and get MORE.

A low price without top-quality service is certainly no bargain. If you're ever involved in an accident, just call the toll-free number and – day or night – report your claim. Plus, you can pick the licensed repair shop of your choice – one you trust to do the job right.

Costco Executive Members receive additional benefits!

Auto policies include
- 24 hour roadside assistance
- Lifetime renewability

Home policies include
- Home fashion appraisal
- Home glass repair reimbursement benefit

(over)

You can choose to stop receiving "prescreened" offers of insurance from this and other companies by calling toll free 1 (888) 567-8688. See ***PRESCREEN & OPT-OUT NOTICE*** *on the back of this letter for more information about prescreened offers.*

Hey, don't know if this thread is still active but here's what you want to do, you want to create a login hook (If you don't know what it is Google it) There's ton of info out there about it including a gui called iNeeh) which is a shell script that run at login. The script itself will look something like this:

#!/bin/bash

mkdir /Volumes/<Share Name>
/sbin/mount -t smb smb://username:password@172.0.0.0/<Share Name> /Volumes/<Share Name>

This will mount the share with the given user name and password (for more information on the mount command type 'man mount' in the command line) at the mount point '/Volumes/<Share Name>' (which can actually be anywhere you want but I like to keep OS conventions). Note: you probably want to set user name to 'guest' as there is no (thank god) variable floating around the operating system that contains the user's password.
Also note: you have to give the full '/sbin/' address of mount, the only commands you can use in login scripts without giving their full path name are the ones in the '/bin' folder.
Okay, so save this file as something descriptive (like mapfolder.sh) and save it somewhere universal (I like /Library/Scripts/). When you're saving it, make sure it's in plain text format (so if you're using TextEdit to create it you'll have to go 'Format >make Plain Text'), change the owner to 'root' and the make sure root has full access (In particular execute privileges):

(In command line type)

sudo chown root <Name Of File>
sudo chmod 700 <Name Of File>

Now we'll bind the script to the log in:

(In command line type)

sudo defaults write com.apple.loginwindow LoginHook /path/to/script/<Name Of Script>

And now, as long as you've done everything correctly, you should be golden. Restart and try logging in as a user (any user at this point). If you want to make the script more advanced and check if the user is local or not there are many good ways that can be found in other peoples scripts (In particular analyzing the Network Home Redirecter script is fun and rewarding) but that is beyond the scope of what I'm trying to demonstrate here) and see if everything works. If not keep tweaking the script until its happy.

Finally I want to address some of the issues raised in the other posts:
The Applescript option is overkill in my experience (when OS X mounts a remote volume it does all kinds of background error checking and what not that I've found slow things down significantly) and the login items in the users Preferences are very hard to maintain with a large user base. If you do get something with

To the Shareholder
Conklin Hrunek & Co., P C
And the Center For Public Company Audit Firms Peer Review Committee

We have reviewed the system of quality control for the accounting and auditing practice of Conklin Hrunek & Co., P C (the firm) applicable to non-SEC issuers in effect for the year ended June 30 2005 The firm has informed us that it did not audit SEC issuers for the year ended June 30 2005 A system of quality control encompasses the firm s organizational structure and the policies adopted and procedures established to provide t with reasonable assurance of complying with professional standards. The elements of quality control are described in the Statements on Quality Control Standards issued by the American Institute of Certified Public Accountants (the AICPA). The design of the system, and compliance with it, are the responsibilities of the firm Our responsibility is to express an opinion on the design of the system, and the firm s compliance with that system based on our review

Our review was conducted in accordance with standards established by the Peer Review Committee of the Center for Public Company Audit Firms and included procedures to plan and perform the review that are summarized in the attached description of the peer review process Our review would not necessarily disclose all weaknesses in the system of quality control or all instances of lack of compliance with it since it was based on selective tests Because there are inherent limitations in the effectiveness of any system of quality control, departures from the system may occur and not be detected. Also, projection of any evaluation of a system of quality control to future periods is subject to the risk that the system of quality control may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the system of quality control for the accounting and auditing practice applicable to the non-SEC issuers of Conklin Hrunek & Co. P C in effect for the year ended June 30, 2005 has been designed to meet the requirements of the quality control standards for an accounting and auditing practice established by the AICPA, and was complied with during the year then ended to provide the firm with reasonable assurance of complying with applicable professional standards.

Receive mode settings

Ring Delay

The Ring Delay sets the number of times the machine rings before it answers in Fax Only or Fax/Tel mode. If you have external or extension telephones on the same line as the machine keep the ring delay setting of 4 rings.

(See *Using external and extension telephones* on page 45 and *Easy Receive* on page 38.)

1. Press **Menu**, **2**, **1**, **1**.
2. Press **▲** or **▼** to choose how many times the line rings before the machine answers. Press **OK**. If you choose 0 the line will not ring at all.
3. Press **Stop/Exit**.

F/T Ring Time (Fax/Tel mode only)

When somebody calls your machine you and your caller will hear the normal telephone ring sound. The number of rings is set by the ring delay setting.

If the call is a fax, then your machine will receive it, however if it is a voice call the machine will sound the F/T ring (a fast double-ring) for the time you have set in the F/T ring time setting. If you hear the F/T ring it means that you have a voice caller on the line.

Because the F/T ring is made by the machine extension and external telephones will not ring, however you can still answer the call on any telephone. (For more information see *Using remote codes* on page 46.)

1. Press **Menu**, **2**, **1**, **2**.
2. Press **▲** or **▼** to choose how long the machine will ring to alert you that you have a voice call (20 30 40 or 70 seconds). Press **OK**.
3. Press **Stop/Exit**.

Note

Even if the caller hangs up during the pseudo/double-ringing, the machine will continue to ring for the set time.

Easy Receive

If Easy Receive is On.

The machine receives a fax call automatically even if you answer the call. When you see Receiving on the LCD or when you hear shrieks through the handset you are using, just replace the handset. Your machine will do the rest.

If Easy Receive is Off.

If you are at the machine and answer a call first by lifting a handset, press **Mono Start** or **Color Start** then press **2** to receive.

If you answered at an extension telephone press **✱ 5 1** (See *Using external and extension telephones* on page 45.)

Note

- If this feature is set to On, but your machine does not connect a fax call when you lift an extension or external telephone handset, press the fax remote code **✱ 5 1**.
- If you send faxes from a computer on the same telephone line and the machine intercepts them, set Easy Receive to Off.

1. Press **Menu**, **2**, **1**, **3**.
2. Press **▲** or **▼** to choose On (or Off). Press **OK**.
3. Press **Stop/Exit**.

Additional receiving operations

Printing a reduced incoming fax

If you choose On, the machine automatically reduces each page of an incoming fax to fit on a page of A4, Letter or Legal size paper.

The machine calculates the reduction ratio by using the page size of the fax and your Paper Size setting (**Menu**, **1**, **3**).

1. Make sure you are in Fax mode .
2. Press **Menu**, **2**, **1**, **5**.
   Setup Receive
   5.Auto Reduction
3. Press **▲** or **▼** to choose On or Off. Press **OK**.
4. Press **Stop/Exit**.

Receiving a fax at the end of a conversation

At the end of a conversation you can ask the other party to send you a fax before you both hang up.

1. Ask the other party to place the document in their machine and to paper Start or Send key.
2. When you hear the CNG tones (slowly repeating beeps), paper **Black Start** or **Color Start**.
3. Press **2** to receive a fax.
   1.Send 2.Receive
4. Replace the external handset.

Receiving faxes into memory when the paper tray is empty

As soon as the paper tray becomes empty during fax reception the screen will display No Paper Fed, asking you to put paper in the paper tray. (See *Loading paper and other print media* on page 6.)

The machine will carry on receiving the fax with the remaining pages being stored in memory. If enough memory is available.

Further incoming faxes will also be stored into memory until the memory is full. When the memory is full the machine will stop automatically answering calls. To print the faxes, put fresh paper in the tray.

Printing a fax from the memory

If you have chosen Paging or Fax Storage you can still print a fax from the memory when you are at your machine. (See *Remote fax options (Black & White only)* on page 55.)

1. Press **Menu**, **2**, **4**, **3**.
   Remote Fax Opt
   3.Print Fax
2. Press **Black Start**.

Note

When you print a fax from the memory the fax data will be erased.

Guardian Angel Prayer

Angel of God, My Guardian Dear
to whom God's love commits me here.

Ever this day be at my side
to light and guard and rule and guide

Amen

Prayer to St. Joseph over 1900 years old

O St. Joseph whose protection is so great, so strong, so prompt before the Throne of God, I place in you all my interests and desires O St. Joseph do assist me by your powerful intercession and obtain for me from your Divine Son all spiritual blessings through Jesus Christ, Our Lord. so that having engaged here below your Heavenly power I may offer my Thanksgiving and Homage to the most Loving nf Fathers O St Joseph, I never weary contemplating you and Jesus asleep in your arms. I dare not approach while He reposes near your heart. Press him in my name and kiss His fine Head for me, and ask Him to return the Kiss when I draw my dying breath St. Joseph, Patron of departing souls, pray for us. Amen

Say for nine consecutive mornings for anything you may desire It has seldom been known to

fail.

This prayer was found in the fiftieth year of Our Lord Jesus Christ. In 1500's it was sent by the Pope to Emperor Charles when he was going into battle

Whoever reads this prayer or hears it or carries it, will never die a sudden death, nor be drowned, nor will poison take effect on them They will not fall into the hands of the enemy nor be burned in any fire, nor will they be defeated in battle

Make this prayer known everywhere

French Potato Salad

Bon Appétit | August 1999

Hold the mayo: This rustic side dish is dressed with a Provence-inspired blend of white wine, Dijon mustard and capers. Be sure the potatoes are still warm when you add them to the dressing; they'll absorb it better and enhance the flavor of the dish.

Yield: Serves 8

1/4 cup canned low-salt chicken broth
1/4 cup dry white wine
1/4 cup olive oil
4 green onions
2 tablespoons Dijon mustard
2 tablespoons white wine vinegar
2 tablespoons drained capers

3 1/4 pounds of 2 1/2-inch-diameter red-skinned potatoes

Whisk first 7 ingredients in large bowl to blend. Season dressing to taste with salt and pepper. (Can be prepared 1 day ahead. Cover and refrigerate. Bring to room temperature before continuing.)

Cook potatoes in large pot of boiling salted water until just tender, about 35 minutes. Drain. Return potatoes to pot. Place pot over low heat until liquid from potatoes evaporates, about 2 minutes.

Cut warm potatoes into 1/3-inch-thick slices. Add to dressing. Toss gently to coat. Let stand at least 1 hour at room temperature. Toss again and serve.

Enumeration of Circulating Tumor Cells by OncoCEE ™ 133

Number of CK+ CTCs	77
Number of Other CTCs (CK-)	56

DAPI Blue=DNA — Orange=HER2 Green=CEP17

Results should be considered and interpreted in conjunction with all other pertinent clinico-pathological findings. Clinical investigators believe that presence of circulating tumor cells (CTCs) in blood is an indicator of metastasis. Metastasis is a complex multistep process that includes epithelial/mesenchymal transition (EMT) in which tumor cells are characterized by loss of cell adhesion, expression of E-cadherin, acquisition of mesenchymal markers, increased cell motility and invasiveness.(1) HER2 is recognized as an important predictive and prognostic factor in breast cancer.(2) HER2 status is predictive of a potential response to HER2 targeted agents such as trastuzumab and lapatinib.(3)

*CTC is defined as CD45-, DAPI+, CK+ or CK- cell

Hi Phil,
We are looking into this but preliminary research indicates sales tax is governed by the state it's shipped to, not from - which would make it easier to create in a custom build. More to come...

Notepad is a basic text editor that you can use to create simple documents. The most common use for Notepad is to view or edit text (.txt) files, but many users find Notepad a simple tool for creating Web pages.

Because Notepad supports only very basic formatting, you cannot accidentally save special formatting in documents that need to remain pure text. This is especially useful when creating HTML documents for a Web page because special characters or other formatting may not appear in your published Web page or may even cause errors.

You can save your Notepad files as Unicode, ANSI, UTF-8, or big-endian Unicode. These formats provide you greater flexibility when working with documents that use different character sets.

KRAS Mutation Analysis by PCR

Instructed Use: The KRAS mutation analysis PCR assay is designed to detect 11 KRAS mutations. KRAS is short for Kirsten rat sarcoma viral oncogene homolog and is a member of the RAS gene family. The KRAS gene provides instructions for making a protein called K-Ras that is involved in cell signaling pathways that control cell growth. Mutations in the KRAS gene can lead to the production of an abnormal K-Ras protein that is always turned on, which sends signals to the cell to grow and divide rapidly. These mutations are found in approximately 30% of all human cancers, including approximately 25% of lung cancers, 50% of colorectal cancers and 90% of pancreatic cancers. The most frequent mutations occur in codons 12 and 13 of exon 2 of the KRAS gene. Mutations in KRAS are usually associated with poor clinical outcome.

If KRAS is "Not Detected" the assay results indicate that no KRAS mutations were present. However, it is possible that mutations exist outside the regions tested by this assay. If KRAS is "Detected" then one or more of the 11 KRAS mutations were present. This is the most frequently reported as positive result. If KRAS is "Inconclusive" then the assay was unable to determine whether KRAS mutations were present. This is usually due to poor sample quality or quantity.

New York's Great Appliance Swap-Out

nyserda
Energy Innovation Solutions

Option 1:

Single Appliance Rebate Application

Rebate Reservation No. 9873692

PLEASE NOTE: Make sure to complete all of the following items on this checklist prior to mailing in your application. Applications determined to be complete will be processed on a first come, first serve basis. Complete applications must be postmarked within 14 days after a reservation is made or a reservation will cancelled.

- ☐ Sign and date the application
- ☐ Enclose your original sales receipt that shows the model number of the appliance you purchased.
- ☐ If you recycled, be sure to include your recycling receipt and fill out ALL of the recycling information on your old recycled appliance (at minimum: make (brand), location where recycled, date recycled, and approximate age)

By signing below, you affirm that you agree to this Terms & Conditions as outlined below. Also, by signing below, you attest that your new ENERGY STAR appliance for which you are applying for this rebate is replacing an existing appliance of the same type in your home.

Participant Signature: Mary L English

Date: 10/15/10

- **In order to qualify for this rebate, your new ENERGY STAR® qualified appliance must be replacing an existing appliance of the same type.**
- **This rebate cannot be combined with incentives offered by utility companies or municipalities.**

Instructions:

1. Complete and mail this appliance rebate form plus the original receipt from your new ENERGY STAR® appliances purchase to: **New York's Great Appliance Swap-Out Rebate, Lockheed Martin Processing Center, 107 Hermes Rd., Suite 305, Malta, NY 12020.** *Note: Only the original new appliance purchase receipt will be accepted for the rebate. Copies are acceptable only when multiple applications are submitted for purchases on the same receipt.*
2. If also applying for a recycling rebate, please include the recycling receipt or confirmation # (NYC residents only) with this application.

Applications will be accepted and a first come, first served basis, and rebates will be provided based on the availability of program funding, which may be exhausted at any time without notice.
KEEP A COPY OF THIS FORM FOR YOUR RECORDS.

...And we just keep getting better!

We're constantly adding and enhancing features to ensure SMBs' online success. Here's a peek at our latest developments:

- Our all-new Wordpress compatibility allows users to integrate a Wordpress blog directly into their website for a comprehensive presence
- Improved widget options make the addition of our high-quality widgets a quick and easy process!
- New Global CSS properties for simple site modification!
- Upcoming customized eCommerce sites will provide users with a rich online product catalog!
- Upgraded publishing optimization cuts back drastically on publish times!

When you become a WebCenter Owner you enter a partnership with industry leaders. You have the opportunity to connect businesses with our comprehensive digital marketing solution, built to expand their customer base and boost their business. And with our holistic support system, we'll help you proactively reach those 27 million businesses through promotional opportunities, trainings, and global expansion capabilities, and mentoring programs... and that's only the beginning.

No experience necessary.

We created the WebCenter program to work for anyone, regardless of their sales skills or technical abilities. **You don't need to be a salesperson to achieve outstanding results.** Our Product Specialists have years of experience remotely presenting our multi-channel marketing technology to businesses of every size. In every industry. They'll demonstrate, negotiate the price and close deals on your behalf, all while you learn from their expertise!

And there's no need to worry about being tech-savvy, either! Both you and your clients gain unlimited access to specialized teams of digital marketing experts who will answer any questions and address any concerns, from social media marketing to SEO, from eCommerce to site design! And now we are proud to offer a menu of add-on services that takes our support to an entirely new level!

Maximize your retail profit.

Did you know WebCenter Owners earn up to $2,700 per sale? Did you know they receive an initial 225BV for every successful sale, plus a recurring 25BV every month for each active client? It's no wonder why so many people partner with maWebCenters® to grow their business and maximize their earning potential!

You've got our support; you're backed by our technology. It's a winning formula, and the only part that's missing is you! Join maWebCenters® and discover what's possible.

Basil Baked Cod Fillets

Number of Servings: 2

Ingredients:

1/2 pound cod, haddock, lingcod, or orange roughy fillets
1 teaspoon olive oil
1 teaspoon lemon juice
1/4 teaspoon dried basil, crushed
1/8 teaspoon black pepper
dash salt
2 plum tomatoes cored and cut lengthwise into thin slices
2 teaspoons grated Parmesan cheese

Instructions:

Drain and pat fillets dry and cut into 2 serving pieces. Combine oil and lemon juice in a baking dish. Add fish and turn to coat both sides. Sprinkle with basil, pepper, and salt. Overlap tomatoes in an even layer on fish and sprinkle with Parmesan cheese. Cover with foil and bake at 400° F about 10–15 minutes or until fish flakes easily.

Baked Sweet Potato Fries

2 medium-sized sweet potatoes*
2 T extra virgin olive oil
1/2 t cumin
1/2 t oregano
1/2 t coriander
1 t kosher salt
1 t parsley
fresh ground pepper (about 10 turns of a pepper mill)

*you want 1lb sweet potatoes after they are peeled, sliced, etc. If you weigh them at the store make sure you have a little more than a pound to allow for the peeling, and tossing of small pieces

Preheat oven to 425 degrees. Spray a cookie sheet lightly with cooking spray. (Do you need to spray it? Probably not. But I feel safer doing it!) Don't use a silpat, or parchment, or anything like that. You want them right on the cookie sheet.

Slice your sweet potatoes into french fry shape and size. I like mine to be 1/4", or maybe a tad bit bigger. Below is a picture of the steps I take to make the most out of the potato. It's pretty self-explanatory. Cutting them larger, like steak fries, will sometimes result in a big soggy mess, so stay small to get the best results

Windows® Fax and Scan

One place to scan and fax your documents

FAX You can send and receive faxed documents on your computer without using a fax machine. You can also print, e-mail, or save a copy of your faxes.

To get started:

1. Connect a phone line to your computer.

   If your computer needs an external modem, connect the phone to the modem, and then connect the modem to your computer.

2. On the toolbar, click **New Fax**.

3. Follow the instructions in the setup wizard to connect to a fax modem and then, when you're finished, create your fax.

To connect to a fax server instead of a modem, contact your system administrator. For more help with faxing, click the **Help** button on the toolbar.

SCAN After you add a scanner to your computer, you can preview documents or pictures before you scan them, and then adjust your scan settings for better results. You can also fax or e-mail scanned files to someone else.

To get started:

1. Connect your scanner to your computer by following the instructions that came with your scanner, and then place a document or picture on the scanner.

2. In Windows Fax and Scan, at the bottom of the left pane, click **Scan**.

3. On the toolbar, click **New Scan**.

4. Choose the scan settings you want to use, and you're ready to scan.

Use the options on the toolbar to fax, e-mail, print, or copy scans at any time. For more help with scanning, click the **Help** button on the toolbar.

LIMITED WARRANTY

A **LIMITED WARRANTY** If you follow the instructions and the software is properly licensed, the software will perform substantially as described in the Microsoft materials that you receive in or with the software.

B **TERM OF WARRANTY; WARRANTY RECIPIENT; LENGTH OF ANY IMPLIED WARRANTIES** **The limited warranty covers the software for one year after acquired by the first user. If you receive supplements, updates, or replacement software during that year, they will be covered for the remainder of the warranty or 30 days, whichever is longer. If the first user transfers the software, the remainder of the warranty will apply to the recipient.**

To the extent permitted by law, any implied warranties, guarantees or conditions last only during the term of the limited warranty. Some states do not allow limitations on how long an implied warranty lasts, so these limitations may not apply to you. They also might not apply to you because some countries may not allow limitations on how long an implied warranty, guarantee or condition lasts.

C **EXCLUSIONS FROM WARRANTY** This warranty does not cover problems caused by your acts (or failures to act), the acts of others, or events beyond Microsoft's reasonable control.

D **REMEDY FOR BREACH OF WARRANTY** **Microsoft will repair or replace the software at no charge. If Microsoft cannot repair or replace it, Microsoft will refund the amount shown on your receipt for the software. It will also repair or replace supplements, updates and replacement software at no charge. If Microsoft cannot repair or replace them, it will refund the amount you paid for them, if any. You must uninstall the software and return any media and other associated materials to Microsoft with proof of purchase to obtain a refund. These are your only remedies for breach of the limited warranty.**

E **CONSUMER RIGHTS NOT AFFECTED** **You may have additional consumer rights under your local laws, which this agreement cannot change.**

F **WARRANTY PROCEDURES.** You need proof of purchase for warranty service.

1. **United States and Canada** For warranty service or information about how to obtain a refund for software acquired in the United States and Canada, contact Microsoft at:

   (800) MICROSOFT,

   Microsoft Customer Service and Support, One Microsoft Way, Redmond, WA 98052-6399, or

   visit http://www.microsoft.com/info/nareturns.htm

2. **Europe, Middle East and Africa** If you acquired the software in Europe, the Middle East or Africa, Microsoft Ireland Operations Limited makes this limited warranty. To make a claim under this warranty, you should contact either:

   Microsoft Ireland Operations Limited, Customer Care Centre, Atrium Building Block B, Carmanhall Road, Sandyford Industrial Estate, Dublin 18, Ireland, or

GET YOUR NEW THIN CLIENT SYSTEM UP AND RUNNING

Congratulations—welcome to enhanced security, reduced cost, less risk and a system that's a whole lot easier to manage.

HP ThinPro thin clients help improve productivity with quick deployment of simple, familiar and more reliable computing experiences.

It's easy to get started

This quickstart guide illustrates some of the most common tasks of setting up an HP ThinPro thin client. It is designed to help you get up and running, right out of the box. However if you have questions, need more information or want to set up a more in depth configuration, please refer to the HP ThinPro Administration Guide at **www.hp.com/support/manuals/thinclients**. Select your thin client and its respective guide under *General Reference*.

LOGGING ON AND GETTING STARTED

The HP ThinPro interface appears when you first turn on the thin client and defaults to User Mode.

User Mode

- Allows restricted rights to subset of access connection creation and control panel applications. Allows restricted rights to subset of access connection creation and control panel applications.

Administrator Mode

- Allows full access to control panel applets, manipulation of HP ThinState Capture and Deploy, FTP images, etc.
- Defines which connections and connection types are visible when in User Mode, and limits users on deleting connections or creating new ones.

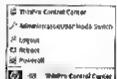
Note: You must log in with administrator permissions to access all components of the HP ThinPro user interface. The default password for Administrator Mode is: **root**.

To switch between User and Administrator mode:

1. Click the HP logo in the bottom left of the screen

   or

2. Position your cursor in the screen background and right-click. Then, select **Administrator/User Mode Switch**.
3. Enter your password.



Quick tip

To determine if you are in User or Administrator mode:

A blue banner at the top of the console window designates User Mode.

A red banner at the top of the console window designates Administrator Mode.

Testing Your HP Fax Machine with the HP Fax Test Service

Introduction

This document will assist you in testing your HP Fax machine using the HP Fax Test Service.

Print this document for easy reference by clicking the **Printable Version** link in the upper right corner of this page.

Test your fax machine

To test the capability of your fax machine, follow the alternating below.

NOTE: Be sure that your phone number is not Caller ID number by your telephone company prior to attempting to send and receive a fax. Presently 52 beans dialing the toll free number will unblock the Caller ID blocking feature in most areas. Other phone receiving services can prevent you from receiving a fax: receiving voice mail, call blocking, or call privacy features.

NOTE: Whenever troubleshooting a fax issue, it is good practice to set the *Automatic Reports* option to *Every Error* before attempting a test fax. This way, even if the card fax fails, an error code will be generating that will guide you in future troubleshooting. This option is available in windows menus on different receiving consult the product *User's Guide* for specific steps

1. Send a one page black and white test fax to **1-800-hpfaxsvc** (1-800-473-2983).
2. When your fax is available by the HP Test Fax Service, we will generate a return fax to you within five minutes, confirming that we received your fax. This verifies that you can both send and receive a fax with your fax receiving

If you do not number a return fax within 5-7 minutes, there may be a problem with the setup of your fax machine. Consult the user manual that came with the product for proper setup and configuration.

NOTE: The most common cause of failure is that the fax number set in the Fax Header on the fax does not match the number of the phone line attempting to the fax. Also, ensure that the fax header features the full 10-digit telephone number of the fax machine including the area code

For more information or assistance, click **Contact HP** at the top of this page.

Eventos Subsecuentes

Excepto lo indicado en el siguiente párrafo, no han ocurrido ni están pendientes eventos o transacciones subsecuentes al 31 de diciembre de 2011 que tuvieran un efecto material sobre los estados financieros a esa fecha o para el período terminado en esa fecha, o que sean de tal importancia respecto a los asuntos de la Compañía que requieran ser mencionados en una nota a los estados financieros a fin de evitar que éstos sean engañosos en cuanto a la situación financiera, resultados de operaciones o los flujos de efectivo de la Compañía.

Hemos revelado en las notas a los estados financieros los siguientes eventos subsecuentes que corresponden principalmente a cambios en regulaciones en Venezuela:

- Decreto Nº 820, en el cual se establece que el funcionamiento, recaudación y administración del Fondo Nacional para el Desarrollo del Deporte corresponde al Instituto Nacional de Deportes
- Aprobación de la Ley Orgánica del Trabajo, Los Trabajadores y las trabajadoras

Entendemos que sus auditorías fueron conducidas de conformidad con normas de auditoría generalmente aceptadas en Venezuela y, por lo tanto, fueron diseñadas principalmente con el objetivo de expresar una opinión sobre los estados financieros de la Compañía tomados en su conjunto, y que sus pruebas a los registros contables y otros procedimientos de auditoría se limitaron a aquellas que ustedes consideraron necesarios para este propósito.

Atentamente,

apply if the counterclaim is based on the Landlord s breach of the warranty of habitability under Paragraph 22 of this lease. In such a case, the Tenant may file a counterclaim.

29 Invalidity or Illegality of Part of Lease.

If any part or clause of this lease is invalid or illegal, then only that part or clause shall be void and have no effect. All other parts and clauses of this lease shall remain in full force and effect.

30 Representations by Landlord.

The Landlord and the Landlord's agents have made no representations or promises except those contained in this Lease. This Lease sets forth the full understanding of the Landlord and the Tenant.

31. Modification or Change of Lease.

The only way in which any of the provisions of this lease can be changed or modified is by a written agreement signed by both of the Landlord and the Tenant. This Section shall not affect the procedure for promulgating the Landlord's Rules.

32. Persons Bound by Lease.

It is the intent of the Landlord and the Tenant that this lease shall be binding upon the Landlord and Tenant and upon any parties who may in the future succeed to their interests.

33. Broker

No broker was involved in any of the transactions connected with this lease.

Testing Your HP Fax Machine with the HP Fax Test Service

Print Share

Introduction

This document will assist you in testing your HP Fax machine using the HP Fax Test Service
Print this document for easy reference by clicking the **Printable Version** link in the upper right corner of this page

Test your fax machine

To test the capability of your fax machine, follow the directions below

NOTE:Be sure that your phone number is not Caller-ID blocked by your telephone company prior to attempting to send and receive a fax. Pressing *82 before dialing the toll free number will unblock the Caller ID blocking feature in most areas. Other phone company services can prevent you from receiving a fax including voice mail call blocking or call privacy features.

NOTE:Whenever troubleshooting a fax issue, it is good practice to set the Automatic Reports option to **Every Error** before attempting a test fax. This way, even if the sent fax fails, an error code will be generated that will guide you in future troubleshooting. This option is available in different places on different products, consult the product User's Guide for specific steps.

1. Send a one page blank and white text fax to **1-888-hpfaxme** (1-888-473-2963)
2. When your fax is received by the HP Test Fax Service, we will generate a return fax to you within five minutes, confirming that we received your fax. This verifies that you can both send and receive a fax with your fax machine

If you do not receive a return fax within 5-7 minutes, there may be a problem with the setup of your fax machine. Consult the user manual that came with the product for proper setup and configuration.

NOTE:The most common cause of failure is that the fax number set in the Fax Header on the machine does not match the number of the phone line connected to the fax. Also, ensure that the fax header contains the full 10-digit telephone number of the fax machine, including the area code

Dear residents of Balboa Towers,

All Pro Asphalt will be doing asphalt repairs on your property on the dates and times listed below. Parking will not be allowed on certain streets on certain dates, so please read all the information below carefully. Vehicles parked on community roads being repaired after 7:30 am may be towed at owners expense. Traffic will be allowed to continue as normal but we ask you drive carefully through the repair areas and avoid all sealed off sections. All parking stalls and drive aisles will be available after 4:30 pm each day. Our crew will begin promptly at 7:30 am. Vehicles parked under carports or in garages will not have to be removed. There will be a Sealcoating process scheduled for 3-4 weeks from now and we will post fliers again for that phase of the project.

Monday September 26 – No Parking on **ANY** common road areas from 7:30-4:30pm

Tuesday September 27 – No Parking on **ANY** common road areas from 7:30-4:30pm

Wednesday September 28 – No parking on Caminito Katerina 7:30-4:30pm

Thursday September 29 – No parking on Caminito Roberto 7:30-4:30pm

Friday September 30 – No parking on Caminito Patricia and Jose 7:30-4:30pm

We look forward to your cooperation on this project and appreciate your patience.

In attention to testing

My name is Jason, Iâ€™m working for a web development company and I m also into freelancing projects mainly based on search engine optimization and online reputation.
While I was looking for one of my client's profile online I have noticed that you could use some help managing your online presence

The online reviews have a direct and measurable impact on your practice, in fact, 97% of internet users are researching the web before making decisions. If they see anything negative - true or not (unethical competition, slander or hateful) - they will go elsewhere

While there are many companies offering alerts for the negative reviews, almost none of them are actually offering a solution for the problem.â€

I can assist you in managing the negative reviews (unethical competition slander or hateful etc), maintain a positive feedback, creating an active defense against any misleading reviews that will eventually come and make sure that people will notice your practice and not your competitionâ€

Reviews are simply too important to ignore, especially when bad reviews(unethical competition, slander or hateful, inaccurate or misleading) cost you real money

Even if you are not really interested or you donâ€™t care about the online image feel free to ask for a free online presence report or more information

Kind regards,
Jason Hinton - Reputation Solutions

Welcome to
Windows® Fax and Scan

FAX You can send and receive faxed documents on your computer without using a fax machine. You can also print, e-mail, or save a copy of your faxes.

To get started:

1. Connect a phone line to your computer.

   Tip If you normally receive faxes on an external modem connected to the phone line, you can connect the modem to your computer.

2. On the toolbar, click **New Fax**.

3. Follow the instructions in the setup wizard to connect to a fax modem and enter the information you'll need to send a fax.

Tip You can use a fax service instead of a fax modem. Contact your system administrator, fax service provider, or Internet service provider (ISP) for more information. For more help, click the **Help** button on the toolbar.

SCAN After you add a scanner to your computer, you can preview documents or pictures before you scan them, and then adjust your scan settings for better results. You can also fax or e-mail scanned files to someone else.

To get started:

1. Connect your scanner to your computer, following the instructions that came with your scanner, and then make sure your scanner is turned on.

2. In the Windows Fax and Scan window, on the left side of the toolbar, click **Scan**.

3. On the toolbar, click **New Scan**.

4. Follow the instructions in the dialog box, and then, when you're ready, click **Scan**.

Use the options on the toolbar to fax, e-mail, print, or copy scans after they're done. For more help, click the **Help** button on the toolbar.

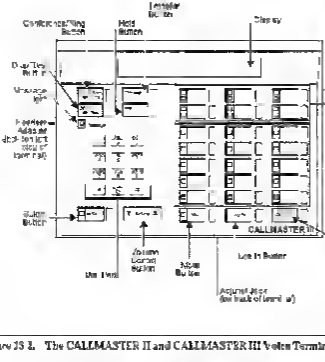

Figure 19-1. The CALLMASTER II and CALLMASTER III Voice Terminal

The CALLMASTER is a multi-appearance digital voice terminal used primarily as a Call Management or Automatic Call Distribution (ACD) position. This voice terminal is equipped with a 2-line by 40-character display that can be used to provide information on incoming and outgoing calls. The unit can be programmed to enter an Aux/Work state following each call for the completion of service paperwork and can be configured for auto-answer operation where calls flow from one station to the next in a rigid sequence.

There are several types of CALLMASTER voice terminals, the 6208 CALLMASTER, the 6308 CALLMASTER and the CALLMASTER II and the 6616 CALLMASTER called the CALLMASTER III. The 6208 CALLMASTER comes in two models: the 6208A and the 6208. Although both of these models are the same in appearance, the 6208 CALLMASTER has a Recorder interface which allows you to connect the voice terminal to a recording device so that you can record all voice interactions. The 6208A does not have a recording interface.

The CALLMASTER II comes with Recorder interface to record voice interactions. The CALLMASTER III comes without Recorder interface. However, both the CALLMASTER II and the CALLMASTER III are identical in appearance. For easy

Chicago Italian Beef (Pot Roast Style)

Recipe courtesy Jeff Mauro

Prep Time:	45min	Level:	Serves:
Inactive Prep Time:	15 min(s)	Intermediate	4 Sandwiches
Cook Time:	4 hr 40 min		

Ingredients

Pot Roast:

1 boneless beef chuck eye roast (about 3 1/2 pounds)
Kosher salt and freshly ground black pepper
2 tablespoons vegetable oil
1 medium onion, roughly chopped
1 tablespoon dried Italian seasoning
2 teaspoons crushed red pepper
6 cloves garlic, roughly chopped
1/2 cup dry red wine
3 cups beef stock
2 sprigs fresh thyme

Sweet Peppers:

4 green bell peppers, seeded and cut into strips
2 tablespoons olive oil
1 teaspoon granulated garlic
Kosher salt and freshly ground black pepper

Sandwich Build:

4 soft, hinged sub or hoagie rolls
Homemade Hot Giardiniera, recipe follows

Directions

For the pot roast: Preheat the oven to 300 degrees F and position a rack in the middle position.

Liberally sprinkle the entire roast with salt and pepper. Heat the oil in a Dutch oven over medium-high heat. Brown the roast on all sides, making sure and cautious each minute that the fat begins to sizzle. Transfer the roast to a plate and reduce the heat to medium. Add the onions and season, stirring occasionally, until just beginning to brown, 8 to 10 minutes. Add the Italian seasoning and crushed red pepper and sauté until fragrant. Add the garlic and sauté until fragrant, about 30 seconds. Deglaze with the red wine and cook until the alcohol smell is almost gone. Add in the stock and thyme and bring to a simmer. Adjust the seasoning of the jus. Place the roast back into the pot with any accumulated juices and place in the oven. Cook the roast uncovered, turning every 30 minutes, until very tender, 3 1/2 to 4 hours. Increase the oven heat to 350 degrees F.

Transfer the roast to a cutting board and rest with foil. Strain the pan through a fine mesh strainer into a bowl or return back to the pot. Bring to a simmer and adjust the seasoning if necessary. Once cooled a bit, pull the meat into smaller chunks and reserve for the sandwiches.

For the sweet peppers: Toss the pepper slices with the oil, granulated garlic and salt and pepper on a baking sheet. Bake stirring halfway through, until lightly in color and soft, about 20 minutes.

Testing Your HP Fax Machine with the HP Fax Test Service

Print Share

Introduction

This document will assist you in testing your HP Fax machine using the HP Fax Test Service. Print this document for easy reference by selecting the Printable Version link in the upper right corner of this page.

Test your fax machine

Tohelp thecompatibility of your fax machine, follow the directions below.

NOTE: Be sure that your phone number is not Caller ID blocked by your telephone company or you're attempting to send and receive a fax. If using VoIP, before dialing the test fax number, you should check the Caller ID blocking feature in your account. Other phone company services can prevent you from receiving a fax, including enhanced call blocking or call privacy features.

NOTE: Whenever practicable before sending a fax to a party for the first time, especially for important documents, it is good practice to confirm by telephone that the party is ready to receive the fax. This will help avoid the embarrassment and unproductive use of resources that can be caused by sending a fax to a misdialed number or to a machine that is not ready to receive the fax properly.

NOTE: Whenever practicable before sending a fax to a party for the first time, especially for important documents, it is good practice to confirm by telephone that the party is ready to receive the fax properly. This will help avoid the embarrassment and unproductive use of resources that can be caused by sending a fax to a misdialed number or to a machine that is not ready to receive the fax properly.

1. Send a one-page black-and-white test fax to 1-888-hpfaxtest (1-888-473-2983).
2. When your fax is received by the HP Test Fax Service, we will generate a return fax to you within a few minutes confirming that we received your fax. This verifies that you can both send and receive a fax with your fax machine.

If you do not receive a return fax within 5-7 minutes, there may be a problem with the setup of your fax machine. Consult the user manual that came with the product for proper setup instructions, or ...

NOTE: The error message code of 0x6 or 0x7 means that the fax number set in the Fax Header on the machine does not match what is configured in the service. Please check the Fax Header and ensure that the fax header contains the full 10-digit telephone number of the fax machine, including the area code.

Interoperable Health Systems

Health information technology (IT) is an important cornerstone to reform [illegible] in America.

[illegible] you sit in a doctor's office writing your health information on yet another set of paper forms. Wouldn't it [illegible] to your doctor? [illegible] from the office [illegible]

> "It's very scary to think that poor handwriting can easily result in a very grave outcome for a patient."
>
> **Jean Stahl, Rph, South Dakota (Pharmacist)**

[illegible] electronic health records [illegible] everyone [illegible] reduce the chance of medical error. And when information can be shared electronically, they will impact every step of the health care process.

Sharing information requires interoperability. [illegible] simple concept: it's what lets you use your bank card in ATMs virtually around the world. It will give us the same kind of access to our personal medical history.

[illegible] interoperability means setting standards so [illegible] systems can talk to another, exchanging data accurately, efficiently, and securely.

Work is underway. The American Health Information Community, which includes representatives from health care professions, technology vendors, government agencies, employers and patients, [illegible] to advise in the development of health IT standards. We are close to adopting standards covering registration, lab results, prescription drugs, and secure information transfer.

There is a certification process to ensure these standards are being met. Nearly two dozen software [illegible] with more on the way.

Interoperability will allow data to be aggregated [illegible] anonymous way and analyzed. Connecting providers and payers across the nation will provide the reservoir of data necessary to dependably measure cost and quality.

This adds up to [illegible] to changing [illegible] health care [illegible]

Price Standards

[illegible] people knowing [illegible]

[illegible] control health care costs — and we must — [illegible] know what our costs are and what we are [illegible] But doing so is difficult. Beyond [illegible] fees and co-payments, [illegible] what we actually pay for health care.

The problem [illegible] a great deal of [illegible] [illegible] As a result, health care costs are higher than they need to be.

Price transparency requires gathering information from [illegible] to provide relevant information [illegible] participation is important because [illegible] [illegible] programs [illegible] HHS is providing cost [illegible] services for our Medicare program.

> "This is the only industry where people are buying services without information. If we want people to become more engaged in thinking about what medical care costs, we have to change that."
>
> **Dianne Kiehl, Executive Director**
> Business Health Care Group of Southeast Wisconsin

At the same time, [illegible] working to develop standards [illegible] consumers can get a clearer [illegible] costs of treatment [illegible] physicians, hospital services, lab tests, pharmacy, rehabilitation, etc.

We are all health care consumers. Informed consumer choice can create positive change.

3 multiple lines and more will be added in the future - so it needs to me easily configured

step 1 when a call is recieved (from an unrecognized number) the caller goes to an IVR
      and asked to enter a 4 / digit code
      then the system should look for that code in the DB
      and connect the call to another phone number (outgoing call)
      through a certain outbound line else from the DB

step 2 every scheduled time (week ur month)
      all codes needs to be automatically changed
      all agent has a few phone numbers they all need to get the same code
      the system will inform send SMS messages to all phone numbers
        start 00 00 am your code will change to XXXXXX
      until that time the code will stay the same and then change

step 3 there will be also ADMIN code which will lead to another authentication
      this user by IVR would be able to

Hail Mary

Today begins the 90th Anniversary of the apparition of the Virgin of Fatima

When you receive this email say a Hail Mary and ask for a special favor

"Hail Mary, full of grace, The Lord is with thee. Blessed art thou among women and blessed is the fruit of thy womb, Jesus. Holy Mary, Mother of God, pray for us sinners, now and at the hour of our death, Amen." (your request)

Please do not break the Novena , send it to 12 people you think deserve justice, peace, love, health, prosperity and truth. When you are down to nothing, God is up to something. This has been traveling since 5/13/07!

DIVISION OF TEMPORARY DISABILITY INSURANCE
CLAIM FOR DISABILITY BENEFITS (DS-1)

DETACH THIS PAGE AND KEEP FOR YOUR RECORDS

CLAIMANT RIGHTS AND RESPONSIBILITIES

RULES FOR FILING A CLAIM AND APPEAL RIGHTS

1 It is your responsibility to file this claim form promptly after you stop working due to your disability. Filing your claim before your last day of work will delay its processing. The law requires that claims must be filed within 30 days after the beginning of the disability. **Benefits may be denied or reduced if the claim is filed late.** If your claim is filed beyond the thirty day period, please use the space provided on the reverse side of Part A to give your reasons for the late filing.

2 If you disagree with a determination on your claim and wish to appeal, you must do so in writing within ten days from the date the decision was mailed. You do not need a lawyer at the appeal hearing.

CLAIMANT RESPONSIBILITIES

1 Your signature certifies that you understand any misrepresentation of fact or failure to disclose a material fact may be punishable under the law. This includes any changes to the Medical Certificate or the Employer's Statement made by you without authorization by your physician or your employer.

2 You must inform us of any other payments you are receiving such as sick pay or wages or a pension from your last employer, worker's compensation benefits, Social Security Disability benefits, or disability benefits from your employer or union.

3 If you receive a request for continued medical certification (Form P30), you must have your physician complete and sign the form. You should return it promptly.

4 When you recover or return to work, you must report this date immediately to the Division of Temporary Disability Insurance.

5. If you are requesting voluntary Federal Income Tax (F.I.T.) deductions to be withheld from your disability benefits, attach Form W-4S (Request for Federal Income Tax Withholding From Sick Pay) to your claim. Forms should be obtained from your employer or the Internal Revenue Service.

6 If your home and/or mailing address changes, you must notify the Division of Temporary Disability Insurance. Go to http://lwd.dol.state.nj.us/labor/tdi/tdindex.html, select the Web Services tab, then Address Change, or write to: PO Box 387, Trenton, NJ 08625-0387. Written notification must include your Social Security Number and signature, along with your previous address and your current address. Any Temporary Disability Insurance benefits issued by check cannot be forwarded by the postal service.

Homeowners INSURANCE

The [illegible] homeowners insurance does and doesn't cover.

Regular homeowners insurance will cover damage from [illegible] and theft but is not likely to cover damage created by flooding, but earthquake and earthquake insurance is available for an extra premium.

[illegible] coverage [illegible] is less than [illegible].

Cost replacement coverage [illegible] actual cash value." [illegible] and replacement cost. A rider will protect valuables like furs, jewelry and collectibles.

Check the [illegible] insurance. Most will insurer pay repair [illegible] some is being repaired or rebuilt.

GETTING THE BEST DEAL

- Shop around. Get quotes. Quotes. Make sure the company is financially sound.
- Get discounts with homeowners and vehicle insurance from the same company.
- Raise your deductible.
- Buy the most liability insurance you can afford to protect against lawsuits. Consider an umbrella policy.
- [illegible] ing clocks in the bedroom and fire alarms and be sure with deadbolts, smoke [illegible] and a security system will help reduce [illegible] policy rate.
- [illegible] s to long-time customer and low-[illegible] claims.
- [illegible] a good credit score.
- [illegible] per damage unless you intend [illegible] a claim, because [illegible] higher premium or dropped coverage.

USUALLY NOT COVERED

- Damage resulting from poor insurance maintenance or neglect.
- Sewer backups and mould.
- Damage caused by pests, like insects, birds and rodents, and by pets.
- Home office equipment.

DON'T MAKE DISASTER WORSE

- Make digital copies of financial records and store away from your home. Video your home's contents.
- Contact your insurance company immediately.
- Check for damage and take photos. Make temporary repairs to mitigate further damage.
- Read your policy, particularly "duties after loss."
- Beware of rip-off repairmen and only use temporary insurance adjusters.
- Read the fine print. Don't sign away insurance compensation with the first check.
- Don't accept any unfair settlements or fees. ■

TIME TO REVIEW YOUR Life insurance

How long has it been since you reviewed your life insurance? Chances are you filed your policy and haven't thought about it in years.

Circumstances change

Life events such as marriage, the birth of a child, the purchase of a new home, the death of a family member or even an income increase can influence how much financial protection your family needs. You should also verify your beneficiary information is accurate and current.

The amount of your life insurance coverage should be adequate to meet current obligations and the future needs of loved ones if you're single. Consider the cost of funeral expenses, medical bills, credit card debt, or elderly parents who may be dependents upon you for support. Everyone's situation is different and so is the amount and type of insurance coverage needed.

Life insurance is a valuable tool for financial protection and important to keep up to date. Most people round help navigating the detailed process of determining how much life insurance is needed. A life insurance agent can help you with a Financial Needs Analysis and make sure your coverage is always aligned with your present day needs and overall financial plan. ■

[illegible] Agents are licensed to offer specific products in the province or territory in which they are licensed. Not all insurance products are available in all provinces and territories.

Immatriculation au Registraire des entreprises du Québec

Avant de demander un permis à l'Office, vous devez immatriculer votre entreprise au Registraire des entreprises du Québec. Cet enregistrement devient exigé après votre immatriculation si ce n'est pas déjà fait. Vous devez vous adresser au Registraire avant de demander votre permis.

DOCUMENTS REQUIS

Veuillez vous assurer d'inclure les documents suivants dans votre envoi et de les transmettre à l'adresse figurant au bas de cette page. L'absence d'un ou des documents relatifs à la délivrance d'un permis à la demande de délivrance de permis n'est réputée reçue que si elle contient tous les renseignements requis, les droits exigibles et les documents requis.

- Formulaire *Demande de permis de commerçant itinérant*
- Chèque fait à l'ordre du ministre des Finances pour le paiement des droits qui doit porter la date du même jour que la demande. Veuillez vous référer à la *Grille de tarifs et cautionnements* disponible sur le site Internet de l'Office (www.opc.gouv.qc.ca)
- Original du cautionnement au montant requis. Veuillez vous référer à la *Grille de tarifs et cautionnements*, disponible sur le site Internet de l'Office (www.opc.gouv.qc.ca). Voir la section *Cautionnement* ci-dessous pour plus d'information concernant le cautionnement à fournir
- Formulaire *Engagement du commerçant*, dans le cas où le cautionnement est fourni sous forme d'obligation au porteur ou en espèces

CAUTIONNEMENT

Le cautionnement prévu est exigé pour garantir à l'endroit des consommateurs, une certaine protection. Le cautionnement pourra éventuellement servir à indemniser les consommateurs en cas de fermeture ou de faillite du commerçant, et le non-exécution des travaux ou de la violation d'autres dispositions de la Loi. Le cautionnement doit être fourni selon l'une ou l'autre des formes suivantes :

- **Police de cautionnement individuel.** Le cautionnement peut être obtenu auprès d'une compagnie d'assurance.
- **Obligation au porteur.** Le cautionnement sera conservé par le Président de l'Office de la protection du consommateur. Vous devez remplir le formulaire d'engagement du commerçant. Des frais d'ouverture de dossier de 253 $ sont exigés et vous payer le caution avec une obligation au porteur. Par ailleurs, à fréquences régulières, une évaluation sera faite de la valeur marchande de l'obligation. Si cette valeur s'avérait inférieure au cautionnement requis, le commerçant sera appelé à parfaire le cautionnement exigé. Veuillez prendre note que l'obligation restera en notre possession 3 ans après la date d'échéance du permis.
- **En espèces (argent, chèque visé, mandat poste ou mandat de banque).** Le cautionnement sera conservé par le Président de l'Office de la protection du consommateur, mais ne portera pas intérêt. Vous devez remplir le formulaire d'engagement du commerçant. Veuillez prendre note que le cautionnement ne sera remboursé que 3 ans après la date d'échéance du permis.

applying a check issued for a credit from a vendor.

Had an invoice from a vendor and paid it in full. Later on returned the entire order and received a credit from the vendor. Decided to no longer use this vendor. the vendor applied the credit to two other invoices to pay them off but sent a check for the remaining amount of the credit. My question is how do I apply this check to a vendor to make everything tie together?

Hi Amanda. Good Day! If you wish to record a credit coming from a vendor, you may create a **bill credit** for it (keep in mind that credit memo is advisable to use if you keep track of your inventory) and eventually apply the available credits to other bills from this vendor.

On the other hand, if you also received a **refund check** from the vendor, then you may record it as a deposit. You may check this link for additional information on: http://support.quickbooks.intuit.com/support/Articles/HOW20843

Note: Once the deposit is entered and assigned to **Accounts Payable**, it will eventually reflect as a bill in the *Pay Bills* window. You may use the remaining balance of the **Bill Credit** you created to pay for it.

Please let me know if this helps.

Thank You! =)

Letter of Authorization

Please return completed form by e-mail to billing@itel.com or by fax to 888-377-4835
Thanks!

This letter authorizes iTel Networks Inc. to act on behalf of the undersigned (the "customer") for the purposes of porting the following numbers to such telecom service providers as iTel Networks Inc. shall designate, such that calls to these numbers can be routed on VoIP service provided by iTel Networks Inc. to the customer. iTel Networks Inc. specifically disclaims any ownership rights in these numbers which will remain the property of the customer and may be ported to another telecom service provider at the request of the customer on the sole condition that the customer's account with iTel Networks Inc. is not in arrears. All services provided by iTel Networks Inc. are governed by iTel Networks Inc. standard terms and conditions. This letter supersedes any previous letters of agency or authorizations related to this matter.

Signing Officer (name): _____
Company Name (if applicable) _____
Signed: _____

Service Location of number to be ported: _____

Date: _____
Number(s) to be ported _____
_____
_____

Important
Please send a recent telephone bill (all pages) for the specified number(s) to be ported. Do not discontinue telephone service on the listed numbers – this will be done as part of the porting process (cancelling service on these numbers prior to the completion of the port order will cause the port request to be denied). Please note that all services that are attached to any number(s) being ported will also be cancelled at the time of the port. Any services that are wished to be kept must be detached from said number prior to port. There will be a porting fee of $55 per rate centre, per order.

- There is a large overhead from the number of bytes needed for the extension header and the possible padding that is needed at the end of the extension to round up to a four byte boundary (up to 3 bytes). For many applications this overhead is unacceptable.

- Use of the header extension limits applications to a single redundant encoding unless further structure is introduced into the extension. This would result in further overhead.

For these reasons the use of RTP header extension to hold redundant audio encodings is discouraged.

The RTP profile for audio and video conferences [1] [illegible] the possibility of assigning additional RTP payload types for redundancy and applications:

1. A dynamic assigning scheme may be defined, for each combination of primary/redundant payload types using the RTP dynamic payload type range.

2. A single fixed payload type may be defined to represent a packet with redundancy. This may then be assigned to either a static RTP payload type, or the payload type for this may be assigned dynamically.

It is possible to define a set of payload types that signify a particular combination of primary and secondary encodings for each of the 32 dynamic payload types provided. This would be a slightly wasteful use of possible solutions for packets with a single block of redundancy as the number of possible combinations is not too large. However the need for multiple blocks of redundancy greatly increases the number of encoding combinations and makes this solution not viable.

A modified version of the above solution could be to decide prior to the beginning of a conference on a set of 32 encoding combinations that will be used for the duration of the conference. All tools in the conference can be initialized with this working set of encoding combinations. Communication of the working set would be made through the use of an external, out of band mechanism. Setup is complicated if asymmetry needs to be taken in sending rules with identical payloads. This scheme is more efficient as only one byte is used to [illegible] combinations of encodings.

Hi MARK,
ENCLOSED ARE YOUR

1001 Jokes

A few years ago Richard Wiseman went in search of the world's funniest joke. The results are described in his book, Quirkology. Here are the first 1001 clean jokes submitted into the database. Enjoy....

37 Is it true that cannibals don't eat clowns because they taste funny?

38 What kind of pig can you ignore at a party? A wild bore

39 What kind of murderer has fiber? A cereal killer

44 A man walking down the streets sees another man with a very big dog. One man says to the other "Does your dog bite" the man replies "No my dog doesn't" The man puts the dog and has his hand bitten off "I thought you said your dog didn't bite" said the injured man. "Thats not my dog" replied the other

45 Q What's the difference between a shoping trolley and a University vice chancellor?
A. You fill them both up with as much food and alcohol you can but it's only the shopping trolley that has a mind of its own.

46 Q How do you catch a polar bear?
A. You cut a hole in the Ice and you put peas all round the edge and when the polar bear comes along and stops for a pea, you kick it in the Ice hole.

47 Why do Marxists like fruit infusions?
Because all proper tea is theft!

48 What was born to succeed?
A budgie with a blunt beak.

49 Three budgies in a cage one on the top perch one on the middle and one on the bottom perch
Which budgie owns the cage?
The one on the bottom perch, the other two are on higher perches.

50 what do you call a fly with no wings?
a walk.

What to Know About a Basement Remodel Cost

Your **basement remodel cost** will be dependent on the size of your basement and the particular items you would like to have in the room. If you are contemplating remodeling your basement read the information below as to how the remodel should be conducted...what items you'll need, and how it all ties into the cost of your remodeling project.

Step 1- Framing

Framing the basement is the first stage of the remodel. You will need to purchase wood or steel studs, nails, and a number of tools, including a wood saw, hammer, and drill. This will be one of larger expenses as you will need to buy several pieces of wood or steel in addition to tools if you do not already have them.

Step 2- Install Wiring

Installing the electrical wiring, plumbing, and any low voltage wiring is the next stage. This will require you to obtain standard electrical wiring, electrical boxes, and PVC tubing for water and sewer lines if necessary. If you are installing any low voltage devices, you will also need low voltage wiring and low voltage rings. The wiring and tubing is not too expensive, so it should not set you back in your budget, depending on the size of your basement.

Step 3- Place Drywall

Placing the drywall is the third stage of the remodel. This involves acquiring drywall, drywall tape, mud, and drywall screws. There are differing types of drywall to choose from and some are more expensive than others. The other materials, the mud, tape, and screws, are fairly inexpensive but important items to purchase.

Step 5- Install Fixtures

Installing fixtures is one of the last steps of the remodel. The fixtures you can install include light switches, electrical outlets, and low voltage fixtures such as cat5 jacks, phone jacks, or coax jacks. All of these items are affordable and easily found at your home improvement store.

Our Father, which art in heaven,
hallowed be thy name,
thy kingdom come,
thy will be done,
on earth as it is in heaven
Give us this day our daily bread
And forgive us our trespasses,
as we forgive them that trespass against us
And lead us not into temptation,
but deliver us from evil
[For thine is the kingdom,
the power, and the glory,
for ever and ever]
Amen

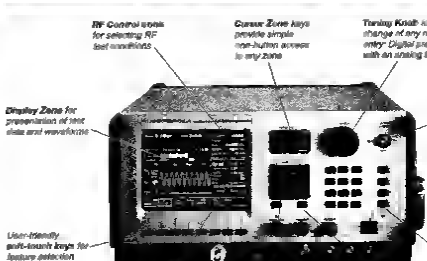
R2600 SERIES SERVICE MONITORS BY MOTOROLA



RF Control keys for selecting RF test conditions
Cursor Zone keys provide simple one-button access to any zone
Tuning Knob for easy change of any numeric entry. Digital precision with an analog feel
Display Zone for presentation of test data and waveforms
Off-the-air antenna port for sensitive receiver measurements
User-friendly soft-touch keys for feature selection
Operator-selected, one-button access to special functions, printing and self-calibration
Audio Control Zone for setting modulation conditions
Cursor Position keys allow instant cursor movement within a zone
Memory Recall for up to 99 channels including automatic scanning plus 16 user-programmable test setups

Whether your service needs are focused on conventional two-way and paging products or more sophisticated trunking and voice encryption technology, Motorola has a service monitor solution to meet your needs.

The Motorola service monitor family includes the R2600 series (for conventional FM and paging testing) and the R2670 (for digital trunked and voice encryption testing). Each features a "one box" design that allows you to perform many complex functions from the same piece of equipment. This is particularly helpful in remote areas where use of multiple pieces of heavy equipment is impractical or impossible.

All Motorola service monitors feature user-programmable storage locations for fast, easy access to the most frequently used channel information. They also provide digitized displays for storage and printout, "soft keys" and windowing for ease of operation, autoranging capabilities with both analog and digital readouts, and signaling encoding/decoding functions.

Motorola service monitors are rugged enough to withstand heavy use in the field. And they're designed to serve you time and help you work more efficiently. Whether used in your shop, at your customer's site or in a remote location they're "The Test You Can Trust."

WEDNESDAY MARCH 7

"Martha, Martha, you are worried and upset about many things." **Lk 10:41 NIV**

THE WORD FOR "WORRYWARTS"

Worry acts like a thief. It robs us of the joy God wants us to experience each day. Basically all our worries come down to two things: that we won't get what we need or that we'll lose what we've got. Martha was a "worrywart" and it showed up when Jesus came to dinner. She wrinkled hand in the kitchen while her sister Mary sat listening to Jesus. In frustration Martha asked, "Lord, don't you care that my sister has left me to do the work by myself?" (v. 40 NIV). Worry makes us forget who's servant and who's Lord. Notice three things in this story: *(1) Martha was busy serving, but she wasn't enjoying it.* No doubt she wanted to please Jesus. It's just that she allowed her work for the Lord to become more important to her than her relationship with the Lord. Has that happened to you? *(2) Satan didn't take Martha out of the kitchen, he just stole her purpose for being there. Satan does not turn you against the church. He just makes you focus on yourself. He doesn't take away your ministry. He just discourages you by saying you're overworked and not appreciated. (3) God values your attitude more than your actions. Do everything without complaining" (Php 2:14 NIV). A bad attitude spoils the gift you offer to God. Jesus said, "Martha, Martha, only one thing is needed. Mary has chosen it. (Lk 10:42 NIV). What did Mary choose? Sitting at the feet of Jesus. He always prefers the quiet devotion of a sincere heart to the noisy applause of a complainer. Think about it.*

THURSDAY MARCH 8

"Love each other as I have loved you." **Jn 15:12 NIV**

BE NURTURING

When Jesus said, "Love each other." He used the Greek word for "love" which means "to nurture. Think of a mother and her child. Her love is constant and her greatest desire for that child is that they should thrive. You say "But isn't that the kind of love people should get somewhere else, like at home?" No, beneath the facade some of the people in your life desperately need to be nurtured. And they'll be influenced most by those who make them feel best about themselves. Many people are very close to my heart because they believed in me when I didn't believe in myself. They listened to me without condemnation and loved me unconditionally, even when I was unlovable. Without them, I wouldn't have possessed the hope I needed to keep pursuing my dream. Now you can't be like the little girl who came home from church and announced, "I want to be like the man who stood up in the pulpit today. Delighted, Mom said, "You want to go into the ministry?" "No," she replied, "I want to tell people what to do." Hello! Some of us want to be authority figures so we can correct people and give them our so-called constructive criticism. Most folks don't need a critic, they need a cheerleader. When you nurture them they will welcome you to speak into their lives and they will listen. Caroline said, "Correction does much, but encouragement does much more." So think encouraging words and speak words of encouragement. Anxiety in the heart of man causes depression, but a good word makes it glad" (Pr 12:25 NKJV).

INSTRUCTIONS

1. Coat a 12-cup muffin tin with vegetable oil spray; set aside. Whisk the flour, baking powder, baking soda, and salt together in a medium bowl; set aside.

2. Using an electric mixer, beat the butter and sugar together at medium-high speed until light and fluffy, about 2 minutes. Add the eggs 1 at a time, beating well after each addition.

3. Reduce the mixer speed to medium-low and beat in half of the flour mixture, followed by one-third of the yogurt. Beat in half of the remaining flour mixture, followed by half of the remaining yogurt, then with the remaining flour mixture and yogurt. Use a spatula to fold in the blueberries with 1 tablespoon flour. Gently fold the floured blueberries into the finished batter. Portion the batter evenly into the prepared muffin tin.

4. **TO STORE:** Wrap the muffin tin tightly with plastic wrap sprayed with vegetable oil spray, and refrigerate for up to 24 hours or freeze for up to 1 month. (After the muffin batter is refrigerated or frozen, about 6 hours, the batter balls can be transferred to a zipper-lock bag to save space in the freezer.) Transfer the batter balls back to an oiled muffin tin before baking.)

5. **TO SERVE:** Adjust an oven rack to the lower-middle position, and heat the oven to 375 degrees. Unwrap the muffins and bake until golden brown, 25 to 30 minutes if refrigerated, or 35 to 40 minutes if frozen. Let the muffins cool in the pan 5 minutes before serving.
